To: National Focal Points for Viral Respiratory Diseases,  
Operational Contact Points for COVID-19, Influenza and SARI for  
Epidemiology, Microbiology and TESSy;  
Cc: National Coordinators

Dear colleagues,

The coded value list for the variable BrandLastCOVID19Dose has been  
updated across all TESSy record types including RESPISURV and  
SARISURV. This is meant to facilitate reporting of all vaccines, as  
needed. The new coded value was activated on March 8.

The metadata and attached reporting protocol can be found as usual on  
TESSy. The reporting protocol is also published on the .

Kind regards,

The ECDC and WHO Europe respiratory virus surveillance teams
