WHEN

11 March 2025
8:00 – 9:30 EST

WHERE

1 Dag
Hammarskjöld
Plaza, New York

Women Political Leaders (WPL) invites you to an exclusive high-level roundtable discussion on **Women's Leadership in the era of AI: Road to 2030**.

This timely dialogue will take place on **Tuesday, 11 March 2025** at, **1 Dag Hammarskjöld Plaza, New York**. It will bring together a group of women political leaders and stakeholders to reflect on progress made since the adoption of the Beijing Declaration and explore how AI and digital transformation can advance equality between women and men on the road to 2030.

As we mark thirty years since the Beijing Declaration, this session provides an opportunity to assess achievements, identify challenges, and develop forward-looking policies that ensure women and girls are at the forefront of the AI transformation. The discussion will focus on:

- Expanding access to digital connectivity.
- Equipping women with the skills to succeed in an AI-driven economy.
- Strengthening digital safety and cybersecurity.

This high-level roundtable will offer an interactive format, ensuring that each participant can contribute to shaping recommendations for policies and initiatives that drive inclusive innovation.

We would be honoured by your presence at this discussion, which aims to highlight the role of women political leaders in shaping responsible, inclusive, and safe AI policies that serve all.

Please confirm your participation by registering [here](#). For any questions, your team can contact Angela Lowe at angela@wpleaders.org.

We look forward to welcoming you to this important conversation.

Yours sincerely,

A handwritten signature in purple ink, appearing to read "Silvana Koch-Mehrin".
