**About recovery support**

Sumy Regional State Administration - Regional Military Administration requests support in restoring the infrastructure of Sumy State University, which was damaged as a result of missile attacks by the armed forces of the Russian Federation.

Sumy State University is a scientific and cultural center of our region, has made a significant contribution to the development of national education, and its staff has shown unwavering devotion to its mission even in times of war. We appreciate the university's efforts to create appropriate conditions for the education of Ukrainian youth both in past years and today.

Currently, Sumy State University has suffered significant damage as a result of missile attacks by the armed forces of the Russian Federation. The university's academic buildings and Congress Center have suffered significant damage. As of April 28, 2025, the following damage to the institution's infrastructure was recorded: 598 windows with a total area of 1,556 m<sup>2</sup> were broken; 170 doors were damaged; 5,500 m<sup>2</sup> of interior

space requires repair work; 1,120 m<sup>2</sup> of building area was completely destroyed. The estimated amount of material damage exceeds 210 million hryvnias. In view of the above, we request you to assist in attracting international financial and technical assistance to rebuild the material base of Sumy State University.

In order to attract international support, we ask that you disseminate information about the extent of the destruction of the university among diplomatic institutions and international organizations.
