Proposal for a

COUNCIL DECISION

on the position to be taken on behalf of the European Union in the Joint Committee established by the Agreement between the European Community, of the one part, and the Government of Denmark and the Home Government of the Faroe Islands, of the other part as regards the provisions to implement the Protocol on veterinary matters supplementing the Agreement

EXPLANATORY MEMORANDUM

1. CONTEXT OF THE PROPOSAL

The Agreement between the European Community, of the one part, and the Government of Denmark and the Home Government of the Faroe Islands, of the other part¹ ('the Agreement') aims to promote the expansion of reciprocal trade, foster economic activity, improve living and employment conditions, increase productivity and financial stability, provide fair conditions for trade competition, and contribute to the removal of trade barriers and encourage the harmonious development and expansion of world trade. The Agreement entered into force on 1 January 1997. To facilitate bilateral trade in animals and animal products, the Contracting Parties further concluded a Protocol on Veterinary Matters supplementing the Agreement² (the Protocol), forming an integral part of the Agreement. The Protocol entered into force on 1 January 2000.

The Joint Committee established by Article 31 of the Agreement, is responsible for the administration of the Agreement and ensures its proper implementation. The Joint Committee acts by mutual agreement.

In accordance with Article 2 of the Protocol, the Joint Committee is empowered to draw up a list of the Community veterinary provisions to be applied by the Faroe Islands, and conditions for the application of these provisions. Through its Decision 1/2001³ the Joint Committee laid down the provisions to implement the Protocol. A veterinary sub-group under the Joint Committee set up by the Protocol is responsible to make recommendations to the Joint Committee in view of updating or amending those provisions.

Decision 1/2001 was last updated in 2008 by Decision No 1/2008⁴ of the Joint Committee. Since that update, the relevant Union acquis has continued to evolve, in particular through the adoption of new legislative acts and amendments to existing acts falling within the scope of the Protocol.

In order to ensure the continued correct and uniform application of the Protocol, it is therefore necessary to update provisions to implement the Protocol so as to reflect the current state of the applicable Union acquis.

In addition, there is a need to improve the text of the provisions to implement the Protocol to offer more clarity on the commodities within its scope, the Union acts applied by the Faroe Islands and the applicable movement rules.

The present proposal therefore aims to repeal and replace Decision 1/2001 with a new Decision of the Joint Committee, introducing an up-to-date list of the relevant Union legislation to be applied by the Faroe Islands and setting out implementing provisions with enhanced clarity.

2. POSITION TO BE TAKEN ON THE UNION'S BEHALF

In order to establish the position to be taken on behalf of the Union within the Joint Committee established by the Agreement, a Council Decision pursuant to Article 218(9) TFEU is required.

The draft Joint Committee Decision attached to the present proposal repeals and replaces Decision 1/2001. The proposed Decision lists the applicable Union rules that the Faroe Islands shall apply, for the entry of animals, products of animal origin and animal by-products from third countries and defines that for those commodities the Union rules for their movement from one Member State into another shall apply to movements from the Union to the Faroe Islands. Furthermore, the proposed Decision lists the commodities for which the Faroe Islands shall apply the applicable Union rules and establishes that for movements of those listed commodities from the Faroe Islands to the Union, the Union rules for their movement from one Member State into another shall apply.

3. LEGAL ELEMENTS OF THE PROPOSAL
