Teema: Asbestos Guide Workshops - reminder

Tähelepanu! Tegemist on väljastpoolt asutust saabunud kirjaga. Tundmatu saatja korral palume linke ja faile mitte avada.
Dear Sir or Madam,

This email is a reminder to participate in workshops to develop a Guidance document for the safe management of asbestos at work, which are taking place between the 30 October and 4 December 2024.

Thank you very much if you have already requested a Teams invitation to a workshop(s). If you know anyone else who might like to attend, please forward this email to them.

A consortium led by RPA is developing the guide, under contract to the European Commission's Directorate-General for Employment, Social Affairs and Inclusion (DG EMPL). The aim of the document is to provide practical advice on preventing and reducing occupational exposure to asbestos for employers, workers, occupational health and safety (OSH) services and experts, and others concerned with advice on the safe management of asbestos at work.

As a part of the project, we are organising a series of online workshops to gather stakeholders views on the potential structure and contents of the guidance document, including the specific practices and measures that will be recommended in the document. The workshop schedule is below.

We would be very happy to welcome you at any of the workshops. (). You will subsequently receive an invitation with a videoconference link. If you have not received a calendar invitation with a videoconference link within one week of requesting one, please email to let us know.

WorkshopWorkshop dateStart-finish

(All times CET)WS01 Asbestos in buildings: Identification & detection Wed 30/10/249am-5pmWS02 Asbestos in buildings: Removal Tue 12/11/249am-5pmWS03 Air exposure measurement Mon 18/11/249m-5pmWS04 Passive exposure & secondary exposure Fri 22/11/249am-1pmWS05 Health surveillance Wed 4/12/249am-1pmWS06 Waste transport and disposal Fri 29/11/249am-1pmWS07 Asbestos in ships & trains Tue 19/11/249am-1pmWS08 Emergency services and firefightingTue 3/12/249am-1pmWS09 Asbestos in mining & quarrying Wed 27/11/242pm-5.30pmWS10 Road construction, rail ballast, hardcore Tue 26/11/249am-1pm
The workshops will be held in English. However, the study team would be happy to respond (in English) to questions/comments raised during the workshops in any of the languages that they can understand (summary below).

WorkshopLanguages understood by team members likely to be presentWS01 Asbestos in buildings: Identification & detection CZ, DE, DK, FR, IT, NL, SKWS02 Asbestos in buildings: Removal CZ, DE, DK, FR, IT, NL, SK WS03 Air exposure measurement CZ, DE, FR, NL, SK WS04 Passive exposure & secondary exposure CZ, DE, FR, SK WS05 Health surveillance CZ, DE, FR, NL, SK WS06 Waste transport and disposal CZ, DE, ES, FR, IT, NL, SK WS07 Asbestos in ships & trains FR, NL,

PT WS08 Emergency services and firefighting CZ, DE, FR, PT, SK WS09
Asbestos in mining & quarrying CZ, DE, FR, NL, PT, SK WS10 Road
construction, rail ballast, hardcore CZ, DE, ES, FR, IT, NL, SK Whilst the
study team will strive to ensure the speakers of the relevant languages
are present at the relevant workshops, unforeseen circumstances (such as
staff illness) may result in the list of languages covered by the study
team changing without further notice.

In addition, we will encourage participants to provide written questions
and comments using the chat box in Microsoft Teams. Machine translation
will be used to relay these comments to the study team.

Please be aware that we cannot share recordings of the workshops.

At the end of the study, the study team will share your contact details
with the European Commission to enable them to tell people about the new
guidance when it is launched. We cannot guarantee the confidentiality of
the data when it is no longer held by the study team. Please email if
you do not want your contact details to be shared with the European
Commission.

Please do not hesitate to get in touch if you would like any further
information about this study.

Kind regards,

Edward Wright
