Ministry of the Interior Estonia
Attention of Mrs. Annika Malva

Schiphol, 19 March 2024

Good morning Mrs. Malva,

I have received your contact details via the Dutch Defense attachée for the Baltic States. As an introduction; my name is Pieter Voeten and I am the Director of Operations of NL EASP AIR.

NL EASP AIR is a Dutch Aviation company, providing a wide range of security and logistic services in the aerial domain. NL EASP AIR is partnering with Berry Aviation (US) within the NORDIC Aerial Support Group. This cooperation is focused to enforce this capability portfolio even further.

I would like to take this opportunity to bring, in particular, the Coast Guard and Search and Rescue (SAR) capabilities of the NORDIC Aerial Support Group to your attention. NL EASP AIR, being one of the partners in the group, has been contracted by the EU FRONTEX Border and Coast Guard Agency since 2016, and this to deploy its assets for border control and coast guard/SAR tasks at the external borders of Europe.

To explain this support, I have enclosed a portfolio of the capabilities that the NORDIC Aerial Support Group offers. These capabilities go much further than just the above-mentioned tasks. They also extend to surveillance flights above national land borders and aerial logistical support (passengers, cargo, MEDEVAC).

If you have any questions or would like to discuss more about this capability, I would kindly request you to contact me.

Sincerely,

Pieter Voeten
Director of Operations
