Commodore Jūri Saska

2024-06-10 Klaipėda No. IS- 269

Commander of the Estonian Navy

~~Dear Commodore,~~

Dear Jūri,

It was a pleasure to see you at the Future Maritime Warfare Symposium in Norfolk, as it provided a perfect opportunity to discuss the current status and future perspectives of our bilateral naval cooperation.

As you already aware, the Lithuanian Navy is also in the process of expanding its naval mine warfare capabilities, which will include acquisition of sea mines. Therefore we would be grateful if my respective working group dealing with that project could visit the Estonian Navy in order to gain and exchange professional knowledge in the respective field. Our proposed visit time frame would be week 32 in 2024.

Exact visit period and other administrative data will be provided by my staff. The main POC for this matter will be LTCDR. Rimantas Preimantas email: rimantas.preimantas@mil.lt, phone no: +37068657956.

Meanwhile, let me wish you and the Estonian Navy all the best and hope to see you again at the earliest opportunity.

Yours sincerely,

Giedrius Premeneckas, RDML

Commander of the Lithuanian Navy
