**Cooperation and Support Plan TSI
2021-2027**

Dear Mr Nava,

Please find attached the signed Cooperation and Support Plan for the Technical Support Instrument.

As a policy developer, the Ministry of Finance of Estonia is committed to identification and prioritization of national reform needs and supports the State Shared Service Centre, acting as Coordinating Authority, if so needed.

It is our pleasure to see, that the selected projects coincide with the national prioritization. These projects help to address several reform challenges where international expertise offers significant added value.

Yours sincerely,

Mart Vörklaev
Minister of Finance
