**Subject: Invitation to the Rescue and public Safety World Convention
2026/ 132nd National Congress of French Firefighters
- La Roche-sur-Foron/ Annecy, September 30 – October 3, 2026**

Dear Mr KLAOS,

The French National Firefighters Federation is pleased to announce the 132nd National Congress in its new form of Rescue and Public Safety World Convention 2026 (Mondial Secour et Protection 2026) to be held at La Roche-sur-Foron et Annecy (Haute-Savoie, France) from September 30 to October 3, 2026.

This major event brings together all civil protection stakeholders and provides an ideal forum for dialogue and cooperation. It promotes discussion on strategic issues and the major challenges currently facing the sector. Expected to welcome tens of thousands of visitors, the Rescue and Public Safety World Convention 2026, which will host the National Congress from its very first edition, will provide an international-level platform for manufacturers and industry stakeholders seeking to showcase their latest innovations.

In this context, companies and manufacturers from your country may, if they wish, participate in the Rescue and Public Safety World Convention 2026 by exhibiting their solutions and equipment in dedicated exhibition spaces. Participation as an exhibitor is subject to the applicable exhibition fees and conditions and remains entirely optional.

Given the strong ties between your country and France, we would be honored by your participation in this key event.

We kindly request that you confirm your attendance before September 5th, 2026, by contacting Mr. Hugo BASSET, Chief of Staff at the French National Firefighters Federation. He will be available to address any inquiries you may have: h.basset@pompiers.fr, +33 6 27 92 42 77.

With warm greetings, please accept, Dear Mr KLAOS, the assurance of my highest consideration.

Jean-Paul BOSLAND
