10122 Tallinn, Estonia

## Personal Invitation to the Privacy Symposium Conference 2026

Your Excellency, Dear Ms. Liisa-Ly Pakosta, Minister of Justice and Digital Affairs of Estonia,

On behalf of the Privacy and Data Governance Symposium and the Italian Data Protection Authority, **we would be honored to welcome you and give you the floor at the next edition of the Privacy Symposium international conference, in Venice, on April 20 to 24 2026.**

The Privacy Symposium aims at **promoting international dialogue, cooperation, and knowledge sharing on data regulations, compliance, and innovative technologies**. Like in the previous editions, the conference will bring together top-level authorities, industry, and experts, including ministers, regulators, heads of international and regional organizations, CEO levels, and international experts from all continents.

The last edition gave the floor to over 400 speakers, including major contributions from Prime Minister Giorgia Meloni, EU DG Justice Commissioner Michael McGrath, U.S. Director of National Intelligence, Tulsi Gabbard, UN Special Rapporteur on the Rights to Privacy, Council of Europe, UNICEF, World Bank, International Monetary Fund, OECD, UN Office on Drugs and Crime, World Food Programme, Interpol, Europol, as well as many national authorities and major industry world leaders.

In order to share more details with you and to adapt the programme to your priorities and availabilities, we propose planning an online meeting with you or your assistant in the coming weeks, preferably before the end of July. Meanwhile, do not hesitate to contact us at [programme@privacysymposium.org](mailto:programme@privacysymposium.org).

We thank you in advance for your consideration and are looking forward to welcoming you to Venice next year.

Yours sincerely,

Dr Sébastien Ziegler  
Chair of the Organising Committee
