* Punktide 1-25 asukohad kattuvad uuringupunktide asukohtadega ning punktid (26-51) on ekstrapoleeritud vastavalt nende lähimate uuringupunktide andmetele.

* Varu arvutuse ploki pindala leidmiseks kasutatud koordinaadid on näidatud graafilisel lisal 1.

* Katendi ja maavara mahuarvutus on detailsemalt kirjeldatud aruande peatükis 6 ning lisas 12.
