## KÕRVALDAMISE ALUSED

### GROUND FOR EXCLUSION AND SELECTION CRITERIA

The Contracting authority does not enter into a Framework contract with an economic operator who or a member of which the administrative, management or supervisory body or other legal or contractual representative related to the public procurement in question has, to the Contracting authority's knowledge, the grounds for exclusion provided for in subsection 95 (1) of the Public Procurement Act. The Contracting authority shall verify the grounds for the exclusion of subsection 95 (1) of the Public Procurement Act on the successful tenderer before concluding the contract. The grounds for exclusion specified in subsection 95 (1) of the Public Procurement Act are verified, using the interface of the public procurement register or the web interface of the Police and Border Guard Board. If the data is not available to the Contracting authority by means of queries, the Contracting authority shall require the successful tenderer to provide all relevant data or documents before awarding the contract. The verification is carried out and confirmations are also given to the joint tenderers or other persons on whom the tenderer has relied upon.

#### **Küsimused ettevõtjale:**

- 1) Does the tenderer confirm that there are no grounds for exclusion referred to in subsection 95 (1) of the Public Procurement Act with regard to it? (Raadionupp valikutega "Jah/Ei")
- 2) If at least one of the grounds specified in paragraphs 1 to 3 and 5 of the subsection 95 (1) of the Public Procurement Act is present regarding the tenderer, it must submit as part of the tender the self-cleaning measures pursuant to §97 of the Public Procurement Act for each such occurrence. No self-cleaning measures may be submitted at a later date. Do you confirm the acceptance of such condition and have you included it if there are grounds for exclusion? (Raadionupp valikutega "Jah/Ei")
