Teema: Invitation to participate in a research survey on AI in public organisations – "'Donate a Speech': Estonia crowdsources speech data for the preservation of the Estonian language"

Tähelepanu! Tegemist on välisvõrgust saabunud kirjaga.Tundmatu saatja korral palume linke ja faile mitte avada.Dear Sir or Madam,
I am writing to invite Ministry of Economic Affairs and Communications (MKM) to take part in a research survey on AI strategic planning and management in European public organisations. Your organisation is being contacted because it has reported the AI project "'Donate a Speech': Estonia crowdsources speech data for the preservation of the Estonian language" to the European Commissions Public Sector Tech Watch Database.
The study is part of a doctoral research project supervised by Prof. J. Ignacio Criado () from the Autonomous University of Madrid and Prof. Manuel Pedro Rodríguez Bolívar () from the University of Granada.
The survey requires approximately 1011 minutes to complete. It should be answered by the person in your organisation responsible for AI or emerging technology projects, or by a colleague in a project management or decision-making role. Should you not be the appropriate person to respond, I would be grateful if you could forward this message to the colleague best placed to do so. In that case, please CC our email address so we can update our database for the survey's monitoring tasks.
The link to the survey is:
Responses are anonymous, will be used exclusively for academic purposes and will be reported only in aggregate form, in accordance with the GDPR.
Should you have any questions, please contact me at .
Yours faithfully,
Sergio Medina BernabéDoctoral researcher, Autonomous University of Madrid
