

Collaboration Proposal Document

1. Introduction

The **World Tech Forum (WTF)** is a global innovation platform connecting entrepreneurs, policymakers, investors, and change makers from over **100 countries**.

Our mission is to accelerate technology-driven progress and sustainability through collaboration, dialogue, and shared innovation.

This proposal outlines a framework for collaboration between WTF and partner organizations working across various sectors — including technology, sustainability, finance, health, education, and smart industries — to collectively drive global impact.

2. Purpose of Collaboration

The purpose of this collaboration is to establish a **strategic, non-financial alliance** focused on innovation, sustainability, and digital transformation.

Key Objectives

- Promote global visibility and knowledge sharing through WTF's international network.
 - Encourage cross-sector collaboration on innovation and social impact.
 - Enable participation in WTF-led events, summits, programs, and research initiatives.
 - Empower youth, entrepreneurs, and professionals through exposure and engagement opportunities.
-

3. Collaboration Framework

This collaboration will be **non-financial** and **non-exclusive**, built on shared values of cooperation, innovation, and visibility.

World Tech Forum will:

- Recognize partner organizations as part of its **Global Innovation Network**.
- Provide representation and speaking opportunities at global summits and events.
- Feature partners in WTF media, reports, and publications.

Partner Organizations will:

- Contribute insights, expertise, and case studies to WTF initiatives.
 - Promote the collaboration through their communication platforms.
 - Participate in co-branded activities and knowledge-exchange programs.
-

4. Global Partner Ecosystem

The World Tech Forum maintains active collaborations and discussions with organizations and innovation networks across continents, fostering a shared mission to advance technology and sustainable development worldwide.

5. Partnership Nature

This collaboration is **non-financial** and **non-binding**, designed to promote shared engagement and global cooperation.

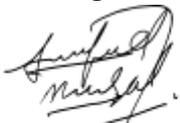

Any future initiative involving financial or resource commitments will be formalized under a separate agreement.

6. Conclusion

Through this partnership, both entities will contribute to building a **global ecosystem of innovation and sustainability**, promoting collaboration across borders and sectors.

Together, we aim to shape a more connected, inclusive, and technology-driven future.

Warm Regards,

ASFAND YAR MENGAL
Founder | Executive Director
