**Concerning:** Official invitation to the **Global Government Summit 2025: Shaping the Future of Social Innovation - 09-11 April | Luxembourg-City, Luxembourg**

Dear esteemed colleagues, dear delegates,

It is of great honor to me to invite you and/or your delegates for social economy and social innovation, to the high-level inaugural summit of the **Government Council for Social Innovation**, anchored by the One Family Foundation, which will be held from April 9<sup>th</sup>, 2025 to 11<sup>th</sup>, 2025 in **Luxembourg-City**.

Since 2009, we are strongly committed to fostering the development and promotion of social economy and social innovation, both at national and global level. We strongly believe that forward-looking policies and a vibrant social economy and social innovation ecosystem are key to achieving a sustainable development and inclusive growth.

Building on our achievements, **government representatives**, leaders, and **prominent ecosystem stakeholders** from bilateral and multilateral organizations will be invited to collaboratively define a global **social impact agenda** for the next decade, focusing on innovative solutions for pressing global challenges.

The key agenda items for discussion include amongst others:

- **Awareness raising:** building public and stakeholder awareness, understanding, and engagement around key societal issues, as well as promoting the importance of collective action to address these challenges. It includes advocacy, education and research, communication strategies, media presence, labels and certifications aimed at mobilizing broader societal support.

- **Policies for impact:** the role of legal and regulatory frameworks, governance structures, and institutional policies in shaping and enabling impactful initiatives. This includes designing laws, regulations, and governmental strategies that foster innovation, inclusion and collaboration.
- **Financing for impact:** strategic allocation, mobilization, and leveraging of financial resources to support sustainable and scalable solutions. This includes innovative funding mechanisms, impact investing, public-private partnerships and other financial instruments to drive social and/or environmental outcomes.
- **Knowledge exchange and impact measurement:** the creation of a dynamic, integrated platform that brings together the generation of knowledge, the application of best practices, and the measurement of outcomes to create scalable and sustainable solutions for pressing global challenges. It fosters collaboration, ensures accountability, and enables continuous improvement in social impact initiatives.

Your active contribution will be another milestone in shaping the future of social innovation on a global scale.

Further organizational details, a concept note and the agenda will be circulated shortly.

**We kindly request you to confirm the name or names of the delegates that will be representing your country or your institution (maximum 2 people) at this summit by January 31st, 2025 at the latest.**

**If this invitation does not concern you, I kindly ask you to forward it to the relevant minister's office. If you should have any questions in the meantime, please do not hesitate to reach out to the One Family Foundation and Ms. Jeroo Billimoria ([jeroo@onefamilyfoundation.one](mailto:jeroo@onefamilyfoundation.one)).**

I look forward to welcoming you in Luxembourg.

Georges MISCHO  
Minister of Labour
