Notes:

Totals may not add up due to rounding.

In accordance with the Australian Department of Social Services' data governance arrangements and protocols, numbers less than five have been de-identified. In addition, where it is possible to calculate the number of people in a de-identified cell by subtracting the other categories from the total, those totals have been suppressed using 'n.p.' (not provided).

The data in the above table is provided under the International Social Security Agreement for internal use by the Agreement country competent authority/ies and competent institution/s.

The data provided in the 3 tables above relates to payments which are covered by the Agreement.

The data for 'outside Estonia' includes recipients paid in Australia or in a third country where allowed by the Agreement.

Approval is required from the Australian Department of Social Services before this data is included in any publications for external distribution.

Please contact the Australian Department of Social Services at [internationalpolicy@dss.gov.au](mailto:internationalpolicy@dss.gov.au) for any questions concerning this information.
