Letter of Support

I am writing on behalf of the State Forest Management Centre (RMK) in support of the bid prepared by the Estonian University of Life Sciences for organising the IUFRO All-Division 5 conference in 2027 in Tartu, Estonia. We strongly believe that Estonia will be the perfect place for the Conference, providing a great atmosphere and full commitment to ensure a successful event.

The Estonian University of Life Sciences is responsible in teaching and doing research in the field of forestry and has established a substantial network of partners who are committed to giving their best in organizing and hosting the Conference on a high level.

With this letter the State Forest Management Centre (RMK), responsible for keeping, protecting and managing forest and other natural biotic communities belonging to the Republic of Estonia, confirms the substantive interest and endorsement to this important event drawing attention to the forestry, climate and environment related topics and providing networking opportunities for mutually enriching cooperation of the research community.

Yours sincerely

A handwritten signature in black ink, appearing to read 'Erko Soolmann', is enclosed within a thin, light blue oval border.

Erko Soolmann
Board member of the State Forest Management Centre (RMK)
