Response

Dear Vittorio Rossello,

On 13.08.2025, your inquiry was registered with the Ministry of Justice and Digital Affairs. In your letter, you are looking for information regarding setting up an MTÜ in Estonia.

As we understand, your question revolves around the documents required for founding an MTÜ, specifically the memorandum of association and the articles of association, which both require to include the objective of the MTÜ. Although these documents are different from one another and have different purposes, the objective section overlaps, as it can be the same text in both files. In general, the objective part of the documents should include the description of the problem the MTÜ is trying to solve, the changes the MTÜ aims to achieve and the overall outcome. The outcome does not have to be too in-depth. I advise you to look at the following article located here: <https://www.mtyabi.ee/en/cso-establishment/>. The cited website aims to explain in more detail what must be included in the two documents, including the objective. I strongly advise you to also look at the example files located at the top right corner of the article I sent you, under PLEASE ALSO SEE. These are example files of the type of documents that are required from you, and the top file also contains multiple comments from the file author about almost every part of the articles of association document.

We hope that our response is helpful.

Yours sincerely,

Sander Truu
Advisor
