Teema: H.E. Minister Liina Vahtras | Invitation to Speak at GITEX Global
2026

Tähelepanu! Tegemist on välisvõrgust saabunud kirjaga. Tundmatu saatja
korral palume linke ja faile mitte avada. For the kind attention of:

Her Excellency Liina Vahtras
Minister of Economy and Industry
Republic of Estonia

Dear Minister Vahtras,

Congratulations on your appointment as Estonias Minister of Economy and
Industry.

I am writing on behalf of the Dubai World Trade Centre to invite you to
speak at , taking place in Dubai from 7-11 December, and to join a
programme of high-level meetings with government, technology and
investment leaders during the event.

Now in its 46th edition, GITEX Global is the worlds largest technology
and startup event, bringing together more than 200,000 participants,
including heads of state, ministers, sovereign wealth leaders, Fortune
500 executives, founders, investors and global technology leaders. This
years programme will examine the defining questions shaping the next era
of AI and technology: how countries build the infrastructure, capital
base and skills required to scale; how they secure and govern emerging
technologies; and how innovation is translated into sustained economic
value.

Given your responsibility for Estonias economic and industrial agenda,
your perspective on the conditions required for countries to build and
scale AI-driven economies across capability, infrastructure, investment
and industrial adoption would be especially relevant to the Summit. We
previously had the opportunity to host Minister Erkki Keldo, your
predecessor in this role, at GITEX Global and would welcome the
opportunity to continue Estonias participation this year.

Beyond the speaking engagement, we would be pleased to include you in a
broader leadership programme comprising curated meetings with ministers,
policymakers, investors and enterprise leaders, alongside invitation-only
discussions focused on the Summits agenda.

Within the GITEX universe, past speakers include:

- * H.E. Aziz Akhannouch, Prime Minister of Morocco
- * Henna Virkkunen, Executive Vice-President for Tech Sovereignty,
European Commission
- * Evan Solomon, Minister of Artificial Intelligence, Canada
- * Anne Le Hénanff, Minister Delegate for Artificial Intelligence and
Digital Affairs, France
- * Prof. Geoffrey Hinton, Nobel Laureate and Godfather of AI

- * Dr Kai-Fu Lee, CEO, 01.AI and Chairman, Sinovation Ventures
- * Sam Altman, Co-Founder and CEO, OpenAI
- * Arthur Mensch, Co-Founder and CEO, Mistral AI
- * Dr Tedros A. Ghebreyesus, Director-General, World Health Organization
- * Amandeep Singh Gill, Under-Secretary-General and Special Envoy for Digital and Emerging Technologies, United Nations
- * Vinod Khosla, Founder, Khosla Ventures
- * Stéphane Boujnah, CEO, Euronext
- * Peng Xiao, Group CEO, G42
- * Andrew Feldman, CEO and Co-Founder, Cerebras
- * Jim Keller, Founder and CEO, Tenstorrent amongst others.

We would be grateful for your consideration of this invitation and would be pleased to provide a short briefing on the proposed discussion themes, format, participant profile and practical arrangements.

Thank you and I hope to welcome you to Dubai in December.

Best regards, Praveen
