Our team consist of 6 people from the 27.05 to the 01.06: Our host Ramon, our author Joshua, our cameramen Paul and Daniel, our sound engineer David and our set-manager Antonia, whom I also put in cc.

After that it will only be four people.

We would use hand-cameras and have no superstructures. The timing is not yet fixed, as it always depends on conditions like the weather.

Are there certain things we should pay attention to while filming?

At the same time, we are also asking the various contacts about permission to fly drones. Is there anything else we should be aware of from your side?

We would be very grateful if we could get a filming permit or be referred to the responsible contact.

[Here are some facts about the documentary series:](#)

'Wunderschön!' is a travel format produced by the WDR and SWR, two of the biggest broadcasters in Germany.

The production company responsible is Bavaria Entertainment (<https://www.bavaria-entertainment.de/>) based in Cologne.

The show has a duration of 90 minutes and airs on Sundays at 8:15 PM on WDR, followed by other regional channels and the cultural channel 3sat.

Each episode presents a different travel destination.

'Breathtaking nature, spectacular sights, culinary delights, and interesting people: Our hosts are on the trail of the perfect vacation and explore the most beautiful regions of Germany and Europe.'

If you want to take a look at the series, you'll find a youtube-links to former episodes (well, it's completely in German, but you can get a visual impression) here:
