

Cellularline REACH SVHC Disclosure

The Registration, Evaluation, Authorization and Restriction of Chemicals Regulation EC 1907/2006, commonly referred to as REACH, is a European regulation on chemicals and their safe use. With the publication of candidate lists for authorization, the European Chemicals Agency identifies sets of substances of very high concern (SVHC) and requires manufacturers to provide customers with sufficient information on Substances of Very High Concern (SVHC) contained in products in concentration above 0.1% by weight (w/w) to allow safe use of the products.

Cellularline fulfills this obligation by notifying affected products in the SCIP database with the necessary information, which in relation to the below mentioned products, can be consulted at <https://echa.europa.eu/scip-database> via the SCIP numbers below:
