

Vilnius – the capital of EuroDIG 2024!

**See you 17–19 June 2024
in Vilnius, Lithuania**

Briefly:

- EuroDIG is the European Internet Governance Forum (IGF)
- It brings together Internet stakeholders from all Europe region and beyond
- Results are influencing public policy on Internet governance across the continent
- Annual 3-day event for live multistakeholder discussions
- Preceded by YOUthDIG for engagement with young generation
- This year the Baltic Domain Days are organized together with the EuroDIG

The European Dialogue on Internet Governance (EuroDIG) is a platform to exchange information, expertise and views on the emerging issues and challenges concerning the Internet. It is a multi-stakeholder initiative, with participation of governments, international organisations, academia, business, technical community and civil society.

EuroDIG is an all year round participation process of dialogue, which culminates in an annual 3-day event organised in a bottom-up manner. The content of the programme is initiated and shaped by all participating stakeholders. After each event, the main messages from European perspective are submitted to the global IGF.

EuroDIG event is preceded by the Youth Dialogue on Internet Governance (YOUthDIG). Young Internet envoys work together on their messages for the main event with young generation perspective on Internet governance, policy and cooperation.

EuroDIG was launched in 2008 and, so far, has held annual events each in another European country supported by a local host. In 2024, the event will take place in Vilnius, the capital of Lithuania, with RRT as the host together with the Ministry of Foreign Affairs, Ministry of Transport and Communications, Ministry of the Economy and Innovation, the Information Society Development Committee, GoVilnius agency and DOMREG as our partners. This time the Baltic Domain Days, organized by DOMREG and their partners, will go together with the EuroDIG.
