Updated climate tracking and digital tagging of the recovery and resilience plan of Slovenia

The table below presents the detailed application of the climate tracking and digital tagging methodologies set out respectively in Annexes VI and VII to Regulation (EU) 2021/241 in the modified Slovenian recovery and resilience plan.

Int. Field = intervention field.

Coeff. = Coefficient for the calculation of support to climate change objectives and to digital transition, on the basis of Annex VI and Annex VII of the RRF Regulation.

*New or revised measures are marked **in yellow** to distinguish them from the unchanged measures in the RRP.*
