COUNCIL DECISION

on the position to be taken on behalf of the European Union within the Joint Veterinary Committee set up by Article 9(1) of Annex 11 to the Agreement between the European Community and the Swiss Confederation on trade in agricultural products relating to Decision No 1/2026 concerning amendments to Appendices 1, 2, 3, 5, 6 and 10 of Annex 11 to the Agreement

Draft

**DECISION No 1/2026 OF THE JOINT VETERINARY COMMITTEE
SET UP BY THE AGREEMENT BETWEEN THE EUROPEAN COMMUNITY
AND THE SWISS CONFEDERATION
ON TRADE IN AGRICULTURAL PRODUCTS**

of ...

**concerning amendments to Appendices 1, 2, 3, 5, 6 and 10
to Annex 11 to the Agreement**

THE JOINT VETERINARY COMMITTEE,

Having regard to the Agreement between the European Community and the Swiss Confederation on trade in agricultural products¹ and in particular Article 19(3) of Annex 11 thereto,

Whereas:

- (1) The Agreement between the European Community and the Swiss Confederation on trade in agricultural products (hereinafter the ‘Agriculture Agreement’) entered into force on 1 June 2002.
- (2) Under Article 19(1) of Annex 11 to the Agriculture Agreement, the Joint Veterinary Committee set up by the Agriculture Agreement (‘the Joint Veterinary Committee’) is responsible for considering any matter arising in connection with that Annex and its implementation, and for carrying out the tasks provided for therein. Article 19(3) of Annex 11 authorises the Joint Veterinary Committee to amend the Appendices to that Annex, in particular with a view to their adaptation and updating.
- (3) Decision No 2/2003 of the Joint Veterinary Committee² amended Appendices 1, 2, 3, 4, 5, 6 and 11 to Annex 11 to the Agriculture Agreement for the first time.
- (4) Decision No 1/2018 of the Joint Veterinary Committee³ last amended Appendix 6 to Annex 11 to the Agriculture Agreement.

¹ OJ L 114, 30.4.2002, p. 132.

² Decision No 2/2003 of the Joint Veterinary Committee set up by the Agreement between the European Community and the Swiss Confederation on trade in agricultural products of 25 November 2003 amending Appendices 1, 2, 3, 4, 5, 6 and 11 to Annex 11 to the Agreement (2004/78/EC) (OJ L 23, 28.1.2004, p. 27).

- (5) Regulation (EU) 2016/429 of the European Parliament and of the Council⁴ amends and repeals several texts of relevance to Annex 11 to the Agriculture Agreement. The animal health measures provided for in Swiss legislation have been assessed and recognised as equivalent to European Union legislation. The assessment of this equivalence was carried out taking into account all legal acts based on animal health legislation. All references to the animal health measures in Appendices 1, 2, 3, 5, 6 and 10 to Annex 11 to the Agriculture Agreement should therefore be amended.
- (6) Given the recognised equivalence concerning animal health, the recognition of disease-free status shall be simplified in order to accelerate it and thus allow for the improved management of cross-border diseases.
- (7) In view of the successive developments concerning specified risk material and the use of animal protein in the feed of non-ruminant animals other than fur animals, the provisions for the prevention, control and eradication of certain transmissible spongiform encephalopathies are updated and simplified in Appendices 1 and 6 to Annex 11 to the Agriculture Agreement.

³ Decision No 1/2018 of the Joint Veterinary Committee set up by the Agreement between the European Community and the Swiss Confederation on trade in agricultural products of 12 June 2018 amending Appendix 6 to Annex 11 to the Agreement [2020/554/EU] (OJ L 127 of 22.4.2020, p. 26, ELI: <http://data.europa.eu/eli/reg/2016/429/oj>).

⁴ Regulation (EU) 2016/429 of the European Parliament and of the Council of 9 March 2016 on transmissible animal diseases and amending and repealing certain acts in the area of animal health ('animal health legislation') (OJ L 87 of 31.3.2016, p. 1, (OJ L 84 of 31.3.2006, pp. 1-208, ELI: <http://data.europa.eu/eli/reg/2016/429/oj>)

- (8) Regulation (EU) 2017/625 of the European Parliament and of the Council⁵ amends and repeals several texts of importance for Annex 11 to the Agreement, in particular for the application of Regulation (EU) 2016/429. Furthermore, since 1 January 2009, Switzerland has incorporated into its national legislation the requirements of the European Union for the official controls performed in order to ensure compliance with the legislation on animals and products of animal origin, and also all the provisions adopted for their implementation in the field of the control of imports from third countries into the European Union. All references to official controls concerning the animal health rules and controls on imports from third countries, set out in Appendices 1, 2, 3, 5, 6 and 10 to Annex 11 to the Agreement, should therefore be amended.
- (9) Commission Implementing Regulation (EU) 2019/1715⁶; It has brought together, streamlined and replaced a number of previous acts laying down separate provisions on the various IT platforms which have now become components of the computerised information management system for official controls (IMSOC). In order to facilitate administrative cooperation between the parties and to guarantee smooth exchanges of information on official controls between the European Commission, the competent authorities of the Member States and the Swiss competent authorities, Switzerland should be fully integrated into the IMSOC system. Switzerland should designate a contact point for that purpose; All references to the information management system for official controls in Appendices 1, 5, 6 and 10 to Annex 11 to the Agriculture Agreement should therefore be amended.

⁵ Regulation (EU) 2017/625 of the European Parliament and of the Council of 15 March 2017 on official controls and other official activities performed to ensure the application of food and feed law, rules on animal health and welfare, plant health and plant protection products, amending Regulations (EC) No 999/2001, (EC) No 396/2005, (EC) No 1069/2009, (EC) No 1107/2009, (EU) No 1151/2012, (EU) No 652/2014, (EU) 2016/429 and (EU) 2016/2031 of the European Parliament and of the Council, Council Regulations (EC) No 1/2005 and (EC) No 1099/2009 and Council Directives 98/58/EC, 1999/74/EC, 2007/43/EC, 2008/119/EC and 2008/120/EC, and repealing Regulations (EC) No 854/2004 and (EC) No 882/2004 of the European Parliament and of the Council, Council Directives 89/608/EEC, 89/662/EEC, 90/425/EEC, 91/496/EEC, 96/23/EC, 96/93/EC and 97/78/EC and Council Decision 92/438/EEC (Official Controls Regulation) (Official Controls Regulation) (OJ L 95, 7.4.2017, pp. 1-142, ELI: <http://data.europa.eu/eli/reg/2017/625/2025-01-05>)

⁶ Commission Implementing Regulation (EU) 2019/1715 of 30 September 2019 laying down rules for the functioning of the information management system for official controls and its system components (the IMSOC Regulation) (OJ L 261, 14.10.2019, p. 37, ELI: http://data.europa.eu/eli/reg_impl/2019/1715/oj)

- (10) The prudent use of antimicrobials is a cornerstone in addressing antimicrobial resistance (AMR). Switzerland and the European Union are engaging with One Health action plans to combat AMR.

Switzerland will apply the same provisions as those set out in Article 107 (with the exception of paragraph 6), in conjunction with Article 37(5) of Regulation (EU) 2019/6⁷ of the European Parliament and of the Council, as regards the rules on the use of antimicrobial medicinal products in productive animals, the prohibition of use in productive animals of designated antimicrobials or of groups of antimicrobials reserved for the treatment of certain infections in humans, and for controls of imports of animals and products of animal origin originating in third countries. Trade in animals and products of animal origin between Switzerland and the European Union may therefore be conducted without an accompanying official certificate to demonstrate compliance with the restrictions applicable to the use of antimicrobial medicinal products. These provisions should be added in Appendices 2, 3, 5, 6 and 10 to Annex 11 to the Agriculture Agreement.

- (11) Appendices 1, 2, 3, 5, 6 and 10 to Annex 11 to the Agriculture Agreement should be amended accordingly,

HAS ADOPTED THIS DECISION:

⁷ Regulation (EU) 2019/6 of the European Parliament and of the Council of 11 December 2018 on veterinary medicinal products and repealing Directive 2001/82/EC (OJ L 4, 7.1.2019, p. 43, ELI: <http://data.europa.eu/eli/reg/2019/6/oj>)

Article 1

Appendices 1, 2, 3, 5, 6 and 10 to Annex 11 to the Agriculture Agreement are amended in accordance with Annexes I to VI to this Decision.

Article 2

This Decision shall enter into force on the day of its adoption.

It shall apply from 1 September 2026.

B. IMPLEMENTING RULES

1. The Commission and the Federal Food Safety and Veterinary Office shall notify each other of any intention to carry out emergency vaccinations. In extreme emergencies, notification may cover the decision as taken and the rules and procedures governing its implementation. At all events, consultations must be held as soon as possible within the Joint Veterinary Committee.
2. The list of European Union reference laboratories shall be published on the European Commission's website, in accordance with Article 99 of Regulation (EU) 2017/625.

Switzerland shall pay the costs for which it is liable for operations carried out by the laboratories in the above capacity. The functions and tasks of these laboratories are those laid down in Article 94 of Regulation (EU) 2017/625.

The list of national reference laboratories for Switzerland shall be published on the website of the Federal Food Safety and Veterinary Office.
3. Inspections are carried out under the responsibility of the Joint Veterinary Committee in accordance in particular with Article 116 of Regulation (EU) 2017/625 and Article 57 of the Law on epizootic diseases.

II. Fish and Mollusc diseases

A. LEGISLATION*

* Unless indicated otherwise, any reference to an act shall mean that act as amended before 31 December 2025.

European Union	Switzerland
<p>1. Regulation (EU) 2016/429 of the European Parliament and of the Council of 9 March 2016 on transmissible animal diseases and amending and repealing certain acts in the area of animal health ('Animal Health Law') (OJ L 84, 31.3.2016, pp. 1–208) and the delegated and implementing acts based on this Regulation adopted by 31 December 2025;</p> <p>2. For provisions on official controls performed by the competent authorities to verify compliance with the rules on the agri-food chain concerning animal health: Regulation (EU) 2017/625 of the European Parliament and of the Council of 15 March 2017 on official controls and other official activities performed to ensure the application of food and feed law, rules on animal health and welfare, plant health and plant protection products, amending Regulations (EC) No 999/2001, (EC) No 396/2005, (EC) No 1069/2009, (EC) No 1107/2009, (EU) No 1151/2012, (EU) No 652/2014, (EU) 2016/429 and (EU) 2016/2031 of the European Parliament and of the Council, Council Regulations (EC) No 1/2005 and (EC) No 1099/2009 and Council Directives 98/58/EC, 1999/74/EC, 2007/43/EC, 2008/119/EC and 2008/120/EC, and repealing Regulations (EC) No 854/2004 and (EC) No 882/2004 of the European Parliament and of the Council, Council Directives 89/608/EEC, 89/662/EEC, 90/425/EEC, 91/496/EEC, 96/23/EC, 96/93/EC and 97/78/EC and Council Decision 92/438/EEC (Official Controls Regulation) (Official Controls Regulation) (OJ L 95, 7.4.2017, pp. 1–142).</p>	<p>1. B. IMPLEMENTING RULES

1. Flat oyster farming is not currently practised in Switzerland. Should cases of bonamiosis or marteiliosis appear, the Federal Food Safety and Veterinary Office undertakes to adopt the necessary emergency measures in accordance with the EU rules on the basis of Article 57 of the Act on epizootic diseases.
2. With a view to combating diseases affecting fish and molluscs, Switzerland shall apply the Ordinance on epizootic diseases, in particular Articles 61 (obligations of leasers of fishing rights and of bodies responsible for monitoring fishing), 62 to 76 (general measures for combating disease), 277 to 290 (specific measures relating to fish diseases, diagnostic laboratory) and 291 (epizootic diseases to be monitored).
3. The list of European Union reference laboratories shall be published on the European Commission's website, in accordance with Article 99 of Regulation (EU) 2017/625. Switzerland shall pay the costs for which it is liable for operations carried out by the laboratories in the above capacity. The functions and tasks of these laboratories are those laid down in Article 94 of Regulation (EU) 2017/625.
The list of national reference laboratories for Switzerland shall be published on the website of the Federal Food Safety and Veterinary Office.
4. Inspections are carried out under the responsibility of the Joint Veterinary Committee in accordance in particular with Article 116 of Regulation (EU) 2017/625 and Article 57 of the Law on epizootic diseases.

B. IMPLEMENTING RULES

1. The European Union reference laboratory for transmissible spongiform encephalopathies (TSEs) shall be published on the European Commission's website.
Switzerland shall pay the costs for which it is liable for operations carried out by the laboratory in that capacity. The functions and tasks of this laboratory shall be as laid down in Article 94 of Regulation (EU) 2017/625.
The national reference laboratory for Switzerland shall be published on the website of the Federal Food Safety and Veterinary Office.
2. Pursuant to Article 57 of the Law on epizootic diseases, Switzerland has established an emergency plan for implementing measures to combat TSEs.
3. Under Article 12 of Regulation (EC) No 999/2001, any animal suspected of being infected by a TSE in the Member States of the European Union shall be placed under an official movement restriction until the results of a clinical and epidemiological examination carried out by the competent authority are known, or killed for the purposes of laboratory examination under official control.

In accordance with Articles 179*b* and 180*a* of the Ordinance on epizootic diseases, Switzerland has banned the slaughter of animals suspected of being infected by a TSE. Suspect animals must be killed without spilling blood and incinerated, and their brains must be analysed in the Swiss reference laboratory for TSEs.

Under Article 10 of the Ordinance on epizootic diseases, Switzerland has introduced a uniform identification system for bovine animals enabling them to be traced back to the dam and herd of origin and making it possible to establish that they are not the progeny of BSE suspect females or BSE confirmed bovine animals.

Pursuant to Article 179*c* of the Ordinance on epizootic diseases, Switzerland slaughters animals infected with BSE, at the latest by the end of the production phase, all animals of the bovine species born between one year before and one year after the birth of the contaminated animal and which, over this period of time, were part of the herd, and all the direct descendants of the contaminated cows born in the two years which preceded the diagnosis.

4. Pursuant to Article 180*b* of the Ordinance on epizootic diseases, Switzerland slaughters animals infected with scrapie, their dams and the direct descendants of contaminated dams, as well as all the other sheep and goats in the herd, with the exception of:

- sheep carrying at least one ARR allele and no VRQ allele, and
- animals less than two months old which are intended solely for slaughter. The head and organs of the abdominal cavity of these animals are disposed of in accordance with the provisions of the Ordinance on animal by-products.

By way of exception, in the case of breeds which are low in number, the herd does not have to be slaughtered. In this case, the herd is placed under official veterinary surveillance for a duration of two years during which a clinical examination of the animals in the herd is carried out twice a year. If during this period animals are presented for slaughter, their heads, including tonsils, are subjected to an analysis by the Swiss reference laboratory for TSEs.

These measures are reviewed according to the findings from animal health monitoring. In particular, the monitoring period is extended if a new case of the disease is detected in the herd.

In the event of a confirmed case of BSE in a sheep or goat, Switzerland undertakes to apply the measures laid down in Annex VII to Regulation (EC) No 999/2001.

5. Under Article 7 of Regulation (EC) No 999/2001, the Member States of the European Union prohibit the feeding of processed animal proteins to farmed animals which are kept, fattened or bred for the production of food. There is a total prohibition on feeding proteins derived from animals to ruminants in the EU Member States.

Under Article 27 of the Ordinance on animal by-products (OSPA), Switzerland has introduced a total prohibition on the feeding of animal protein to farmed animals.

Derogations are possible for processed proteins from fish, pigs, poultry and farmed insects, in accordance with Regulation (EC) No 999/2001, as well as the Ordinance on animal by-products (OSPA) and the Ordinance on the use of animal by-products as feed or fertiliser (OUSPA).

6. Under Article 6 of Regulation (EC) No 999/2001 and in accordance with Chapter A of Annex III to that Regulation, the Member States of the European Union are to introduce an annual BSE monitoring programme. This plan includes a rapid BSE test for all cattle more than 24 months old subject to emergency slaughter, animals which have died on the farm or found to be ill during the ante mortem inspection and all animals more than 30 months old slaughtered for human consumption.

The rapid BSE tests used by Switzerland are listed in Chapter C of Annex X to Regulation (EC) No 999/2001.

Pursuant to Article 179 of the Ordinance on epizootic diseases, Switzerland carries out an obligatory rapid BSE test on all cattle older than 48 months that have died or been killed for reasons other than slaughter, been taken diseased to the slaughterhouse or have suffered an accident.

7. Under Article 6 of Regulation (EC) No 999/2001 and in accordance with Chapter A of Annex III to that Regulation, the EU Member States are to introduce an annual monitoring programme for scrapie.

Pursuant to the provisions of Article 177 of the Ordinance on epizootic diseases, Switzerland has introduced a TSE monitoring programme for ovine and caprine animals more than 12 months old. Animals which are subject to emergency slaughter, have died on the farm or have been found to be ill during the ante mortem inspection and all animals slaughtered for human consumption were examined over the period from June 2004 to July 2005. As all the samples tested negative for BSE, samples for monitoring purposes are taken from clinical suspect animals, animals subject to emergency slaughter and animals which died on the farm.

The recognition of similarities in legislation governing the monitoring of TSEs in ovine and caprine animals will be reconsidered by the Joint Veterinary Committee.

8. The Joint Veterinary Committee is responsible for providing the information required in Article 6 and Chapter B of Annex III and in Annex IV (3.III) to Regulation (EC) No 999/2001.
9. Inspections are carried out under the responsibility of the Joint Veterinary Committee in accordance in particular with Article 116 of Regulation (EC) No 2017/625 and Article 57 of the Law on epizootic diseases.

B. IMPLEMENTING RULES

1. Inspections shall be carried out under the responsibility of the Joint Veterinary Committee in accordance in particular with Article 116 of Regulation (EU) 2017/625 and Article 57 of the Law on epizootic diseases.
2. Animals traded between the Member States of the European Union and Switzerland shall move under the same conditions as animals traded between the Member States of the

European Union. Where necessary, these products are accompanied by the health certificates required for trade between the Member States of the European Union or defined in this Annex and available in the TRACES system.

3. For the purposes of this Annex, Switzerland is recognised as fulfilling the conditions provided for in Chapter 4 of Part II of Regulation (EU) 2016/429, Delegated Regulation (EU) 2020/689⁹ and Implementing Regulation (EU) 2021/620¹⁰ as regards the diseases listed in the sites of the Commission ‘Surveillance, eradication programmes and disease-free status – Food Safety’ and of the Federal Food Safety and Veterinary Office, National Surveillance Programme.

For diseases for which Switzerland does not yet have approval of disease-free status, Switzerland shall present to the Joint Veterinary Committee the information necessary according to the approval criteria set out in Regulation (EU) 2016/429. On the basis of this information, the Joint Veterinary Committee agrees to update the information available on the websites mentioned above.

The Federal Food Safety and Veterinary Office shall immediately notify the Commission of any change in the conditions on which recognition of that status is based for one of the diseases listed in this paragraph. The situation shall be examined within the Joint Veterinary Committee.

4. For the purposes of this Annex, Switzerland is recognised as fulfilling the conditions laid down in point 1, Section 2, Chapter 3, Part I of Annex IV to Implementing Regulation (EU) 2020/689 as regards bovine tuberculosis. In order to maintain its status as having an officially brucellosis-free bovine herd, Switzerland undertakes to meet the following conditions:

- a) any animal of the bovine species suspected of being infected with brucellosis shall be reported to the competent authorities and the animal concerned shall undergo the official tests for brucellosis, comprising at least two serological tests with complement fixation and a microbiological examination of suitable samples taken in cases of abortion;

⁹ Commission Delegated Regulation (EU) 2020/689 of 17 December 2019 supplementing Regulation (EU) 2016/429 of the European Parliament and of the Council as regards rules for surveillance, eradication programmes, and disease-free status for certain listed and emerging diseases (OJ L 174, 3.6.2020, p. 211)

¹⁰ Commission Implementing Regulation (EU) 2021/620 of 15 April 2021 laying down rules for the application of Regulation (EU) 2016/429 of the European Parliament and of the Council as regards the approval of the disease-free and non-vaccination status of certain Member States or zones or compartments thereof as regards certain listed diseases and the approval of eradication programmes for those listed diseases (OJ L 131, 16.4.2021, pp. 78–119)

b) until such time as suspicion of the disease is lifted, i.e. when the tests provided for in point (a) have produced negative results, the officially brucellosis-free status of the herd to which the animal (or animals) of the bovine species suspected of infection belongs shall be suspended.

5. Switzerland shall apply the same provisions as those of Article 107 (with the exception of paragraph 6) of Regulation (EU) 2019/6, in conjunction with Article 37(5) thereof on the use of antimicrobial medicinal products in animals intended for production, in accordance with its legislation listed in Section A above.

Switzerland does not authorise either the placing on the market of medicinal products intended for production animals containing one of the antimicrobials or groups of antimicrobials listed in point 2) or 3) of the Annex to Implementing Regulation (EU) 2022/1255¹¹ or the use in production animals of medicinal products for human use containing these antimicrobials or groups of antimicrobials.

Discussions will take place in the Joint Veterinary Committee on amendments to the above-mentioned European Union legislation requiring adaptation of the Swiss provisions.

Therefore, Switzerland shall not be considered as a third country for the purposes of Article 118 of Regulation (EU) 2019/6 until 1 July 2028.

It shall immediately inform the Joint Veterinary Committee of any further changes to its legislation on antimicrobial medicinal products intended for production animals.

This paragraph shall be reviewed by the Joint Veterinary Committee before 1 July 2028.

6. For consignments of hatching eggs to the European Union, the Swiss authorities undertake to comply with the rules on marking laid down in Commission Regulation (EC) No 617/2008¹².
7. In the case of consignments from Switzerland to Finland, Sweden or Denmark, the Swiss authorities undertake to supply the guarantees concerning salmonella required under EU legislation.

¹¹ Commission Implementing Regulation (EU) 2022/1255 of 19 July 2022 designating antimicrobials or groups of antimicrobials reserved for the treatment of certain infections in humans, in accordance with Regulation (EU) 2019/6 of the European Parliament and of the Council (OJ L 191 of 20.7.2022, p. 58)

¹² Commission Regulation (EC) No 617/2008 of 27 June 2008 laying down detailed rules for implementing Council Regulation (EC) No 1234/2007 as regards marketing standards for eggs for hatching and farmyard poultry chicks (OJ L 168, 28.6.2008, p. 5).

B. IMPLEMENTING RULES

1. Inspections shall be carried out under the responsibility of the Joint Veterinary Committee in accordance in particular with Article 116 of Regulation (EC) No 2017/625 and Article 57 of the Law on epizootic diseases.
2. For the purposes of this Annex, Switzerland is recognised as fulfilling the conditions provided for in Chapter 4 of Part II of Regulation (EU) 2016/429, Delegated Regulation (EU) 2020/689¹⁶ and Implementing Regulation (EU) 2021/620¹⁷ as regards the diseases listed in the sites of the Commission ‘Surveillance, eradication programmes and disease-free status – Food Safety’ and of the Federal Food Safety and Veterinary Office, National Surveillance Programme.

For diseases for which Switzerland does not yet have approval of disease-free status, Switzerland shall present to the Joint Veterinary Committee the information necessary according to the approval criteria set out in Regulation (EU) 2016/429. On the basis of this information, the Joint Veterinary Committee agrees to update the information available on the websites mentioned above.

The Federal Food Safety and Veterinary Office shall immediately notify the Commission

¹⁶ Commission Delegated Regulation (EU) 2020/689 of 17 December 2019 supplementing Regulation (EU) 2016/429 of the European Parliament and of the Council as regards rules for surveillance, eradication programmes, and disease-free status for certain listed and emerging diseases (OJ L 174, 3.6.2020, p. 211)

¹⁷ Commission Implementing Regulation (EU) 2021/620 of 15 April 2021 laying down rules for the application of Regulation (EU) 2016/429 of the European Parliament and of the Council as regards the approval of the disease-free and non-vaccination status of certain Member States or zones or compartments thereof as regards certain listed diseases and the approval of eradication programmes for those listed diseases (OJ L 131, 16.4.2021, pp. 78–119)

of any change in the conditions on which recognition of that status is based for one of the diseases listed in this paragraph. The situation shall be examined within the Joint Veterinary Committee.

3. As regards bovine semen, it is noted that in Switzerland all centres include only animals with a negative serum neutralisation test or ELISA test for infectious bovine rhinotracheitis or infectious pustular vulvo-vaginitis.
4. For sectors where recognition of equivalence is mutual, germinal products traded between the Member States of the European Union and Switzerland shall move under the same conditions as germinal products traded between the Member States of the European Union. Where necessary, these products shall be accompanied by the health certificates required for trade between the Member States of the European Union and available in the TRACES system.

B. IMPLEMENTING RULES

For trade in live animals and germinal products, and the grazing of animals in border areas between the European Union and Switzerland, the health certificates shall be those provided for in this Appendix.

In the cases provided for in Articles 102 and 104 to 107 of Regulation (EU) 2017/625, the competent authorities of the place of destination shall contact the competent authorities of the place of dispatch without delay. They shall take all necessary measures and notify the competent authority of the place of dispatch and the Commission of the nature of the checks carried out, the decisions taken and the reasons for such decisions.

C. SPECIFIC IMPLEMENTING RULES

APPLICABLE TO ANIMALS SENT FOR GRAZING IN BORDER AREAS

1. Definitions

Border grazing: dispatching animals to a Member State of the European Union or to Switzerland with a view to grazing in a 10 km strip on either side of the border. In special, duly substantiated conditions, a wider strip on either side of the border between Switzerland and the Union may be authorised by the competent authorities concerned.

Daily grazing: grazing where the animals are returned to their holding of origin in a Member State of the European Union or in Switzerland at the end of each day.

2. The conditions for the cross-border movement of animals laid down in Regulation (EU) 2016/429, Delegated Regulation (EU) 2020/688 and Delegated Regulation (EU) 2019/2035 shall apply to border grazing between the Member States of the European Union and Switzerland. The provisions of Article 139 of Regulation (EU) 2016/429 shall apply *mutatis mutandis*.

3. Pursuant to the Ordinance of 27 June 1995 on epizootic diseases (OFE; RS 916.401), and in particular Article 7 thereof (registration) and the Ordinance of 3 November 2021 on Identitas SA and the database on animal trafficking (OId-BDTA; RS 916.404.1), and in particular Section 2 (contents of the databank) thereof, Switzerland shall assign to each pasture a specific registration code which shall be registered in the national bovine database.
4. In the case of grazing between the Member States of the Community and Switzerland, the official veterinarian of the country of dispatch shall:
 - a) on the date of issue of the certificate and no later than 24 hours before the planned date of arrival of the animals, by means of the computerised system linking veterinary authorities provided by Implementing Regulation (EU) 2019/1715, inform the competent authority of the place of destination (local veterinary unit) to which the animals have been dispatched;
 - b) issue a certificate in accordance with Implementing Regulation (EU) 2021/403.
5. Throughout the duration of the grazing period, the animals shall remain under customs control.
6. The holder of the animals must:
 - a) agree, in a written statement, to comply with all measures taken pursuant to this Annex and any other measures introduced at local level, in the same way as any holder originating in a Member State of the Community or Switzerland;
 - b) pay the costs of the checks required pursuant to this Annex;
 - c) cooperate fully with arrangements for customs or veterinary checks required by the authorities of the country of dispatch or of destination.
7. When the animals return at the end of the season or before, the official veterinarian of the country where the grazing ground is located shall:
 - a) on the date of issue of the certificate and no later than 24 hours before the planned date of arrival of the animals, by means of the computerised system linking veterinary authorities provided by Implementing Regulation (EU) 2019/1715, inform the competent authority of the place of destination (local veterinary unit) to which the animals have been dispatched;
 - b) issue a certificate in accordance with Implementing Regulation (EU) 2021/403.

8. In the event of outbreaks of disease, the competent veterinary authorities shall take appropriate measures by mutual agreement. Those authorities shall consider how to cover any costs involved. If necessary, the matter shall be referred to the Joint Veterinary Committee.
9. As an exception to the rules on grazing in points 1 to 8, in the case of daily grazing between the Member States of the Community and Switzerland:
 - a) the animals shall not enter into contact with animals from another holding;
 - b) the holders of such animals shall undertake to inform the competent veterinary authority of any contact between their animals and animals from another holding;
 - c) the health certificate must be presented to the competent veterinary authorities every calendar year when the animals first enter a Member State of the European Union or Switzerland. This health certificate must be presented to the competent veterinary authorities at the request of the latter;
 - d) points 2 and 4 above shall apply only to the first time in each calendar year that the animals are dispatched to a Member State of the European Union or to Switzerland;
 - e) point 7 shall not apply;
 - f) the holders of animals shall undertake to inform the competent veterinary authority of the end of the grazing period.

1. For the purposes of applying Articles 59 and 60 of Regulation (EU) 2017/625, the lists of border control posts of the Member States of the European Union for veterinary checks on live animals shall be published on the website of the European Commission.
2. For the purposes of implementing Articles 59 and 60 of Regulation (EU) 2017/625, the border inspection posts for Switzerland shall be:

Organisation	TRACES Code	Type of licence
Zürich Airport	CHZRH4	LA-O*
Geneva Airport	CHGVA4	LA-O*

* By reference to the approval categories defined by Commission Implementing Regulation (EU) 2019/1014 of 12 June 2019 to lay down detailed rules on minimum requirements for border control posts, including inspection centres, and for the format, categories and abbreviations to use for listing border control posts and control points (OJ L 165, 21.6.2019, pp. 10–22).

The Joint Veterinary Committee shall be responsible for any subsequent amendments to the list of border inspection posts, their inspection centres and their type of approval.

3. Inspections shall be carried out under the responsibility of the Joint Veterinary Committee in accordance in particular with Article 116 of Regulation (EC) No 2017/625 and Article 57 of the Law on epizootic diseases.

4. The Federal Food Safety and Veterinary Office shall apply, simultaneously with the Member States of the European Union, the import conditions referred to in Appendix 3 to this Annex, and the implementing measures.

The Federal Food Safety and Veterinary Office may adopt more restrictive measures and require additional guarantees. Consultations shall be held within the Joint Veterinary Committee to find suitable solutions.

The Federal Food Safety and Veterinary Office and the Member States of the European Union shall notify each other of the specific import conditions established bilaterally, which have not been harmonised at Union level.

5. The border inspection posts of the Member States of the European Union referred to in point 1 of this Section shall check imports from third countries destined for Switzerland in accordance with Section A of this Chapter.
6. The Swiss border inspection posts mentioned in point 2 shall check imports from third countries destined for the Member States of the European Union in accordance with Section A of this Chapter.
7. Switzerland shall not be considered as a third country for the purposes of Article 118 of Regulation (EU) 2019/6 until 1 July 2028.

This paragraph shall be reviewed by the Joint Veterinary Committee before 1 July 2028.’.

Implementing rules and special conditions

- 1) Switzerland is integrated into the information management system for official controls and all its components, as defined in Commission Implementing Regulation (EU) 2019/1715. Switzerland shall designate a contact point for this purpose.
- 2) Animal products intended for human consumption which are traded between the Member States of the European Union and Switzerland shall be moved only under the same conditions as animal products intended for human consumption which are traded between the Member States of the European Union, also as regards animal protection at the time of slaughter. Where necessary, these products are accompanied by the health certificates required for trade between the Member States of the European Union or defined in this Annex and available in the TRACES system.
- 3) Switzerland will draw up a list of its establishments approved in accordance with Article 45 (registration/approval of establishments) of Implementing Regulation (EU) 2019/1715.
- 4) For its imports, Switzerland shall apply the same provisions as those applicable at Union level.
- 5) The Swiss authorities undertake that carcasses and the meat of domestic swine placed on the market in the European Union will always have been subject to examination for Trichinella.
- 6) The detection methods described in Chapters I and II of Annex I to Commission Implementing Regulation (EU) 2015/1375 are used in Switzerland for the Trichinella examinations.

- 7) Pursuant to Article 8 (paragraphs 1(a) and 3 of the DFI Ordinance of 23 November 2005 on hygiene during the slaughter of animals (OHyAb; RS 817.190.1) and Article 10 (paragraph 8) of the DFI Ordinance of 16 December 2016 on foodstuffs of animal origin (ODAIAn; RS 817.022.108), carcasses and meat of domestic swine kept for fattening and slaughter as well as meat preparations, meat products and derived processed products thereof which are not intended for the market in the European Union shall be marked with a special health stamp in accordance with the model specified in the last subparagraph of Annex 9 to the DFI Ordinance of 23 November 2005 on hygiene during the slaughter of livestock (OHyAb; RS 817.190.1).

These products may not be traded with the Member States of the European Union, in accordance with the provisions of Article 10 of the DFI Ordinance of 16 December 2016.

- 8) Pursuant to the provisions of Article 2 of the DFI Ordinance of 16 December 2016 on hygiene in food-related activities (DFI Ordinance on Hygiene, OHyG; RS 817.024.1), the competent authorities of Switzerland may in particular cases allow exceptions to Articles 8, 10 and 14 of this Ordinance:

- a) to meet the needs of establishments located in mountainous regions, pursuant to the Federal Law of 6 October 2006 on regional policy (RS 901.0) and the Ordinance of 28 November 2007 on regional policy (OPR; RS 901.021)

The competent authorities of Switzerland undertake to notify the Commission by written procedure of such adjustments. The notification shall:

- provide a detailed description of the provisions for which the competent authorities of Switzerland consider that an adjustment is necessary, and indicates the nature of the adjustment in question;
- describe the foodstuffs and establishments concerned,
- explain the grounds for the adjustment (including, where appropriate, the provision of a summary of the risk analysis carried out and indicating any measure needed to ensure that the adjustment does not compromise the objectives of the DFI Ordinance of 16 December 2016 on hygiene in food-related activities (DFI Ordinance on Hygiene, OHyG; RS 817.024.1);
- give any other relevant information.

The Commission and the Member States of the European Union shall have three months from the receipt of the notification to submit their written observations. If necessary, the Joint Veterinary Committee will be convened;

- b) for the production of foods with traditional characteristics.

The competent authorities of Switzerland undertake to notify the Commission by written procedure of such adjustments at the latest 12 months after the individual or general derogations have been granted. Each notification shall:

- provide a short description of the requirements that have been adapted,
- describe the foodstuffs and establishments concerned; and
- give any other relevant information.

- 9) The Commission shall inform Switzerland of the derogations and adjustments applied in the Member States of the European Union under Article 13 of Regulation (EC) No 852/2004, Article 10 of Regulation (EC) No 853/2004 and Article 7 of Regulation (EC) No 2074/2005.
- 10) The European Union reference laboratories for residues of veterinary medicinal products and contaminants in food of animal origin shall be published on the website of the European Commission in accordance with Article 99 of Regulation (EU) 2017/625. Switzerland shall pay the costs for which it is liable for operations carried out by the laboratories in the above capacity. The functions and tasks of these laboratories are those laid down in Article 94 of Regulation (EU) 2017/625. The list of national reference laboratories for Switzerland shall be published on the website of the Federal Food Safety and Veterinary Office.
- 11) Pending recognition of the alignment of European Union legislation and the Swiss legislation, for exports to the European Union, Switzerland shall monitor compliance with the acts listed below and their implementing texts:
1. Council Regulation (EEC) No 315/93 of 8 February 1993 laying down Community procedures for contaminants in food (OJ L 37, 13.2.1993, p. 1);

A. Ordinance of 18 November 2015 governing trade with third countries involving the importation, transit and exportation of animals and animal products countries (OITE-PT; RS 916.443.10).

B. DFI Ordinance of 18 November 2015 governing trade with third countries involving the importation, transit and exportation of animals and animal products (OITE-PT-DFI; RS 916.443.106).

3. Implementing provisions

A. The Federal Food Safety and Veterinary Office shall apply, simultaneously with the Member States of the European Union, the import conditions set out in the acts mentioned in point I of this Appendix, the implementing measures and the lists of establishments from which the corresponding imports are authorised. This undertaking shall apply to all the relevant acts, irrespective of their date of adoption.

The Federal Food Safety and Veterinary Office may adopt more restrictive measures and require additional guarantees. Consultations shall be held within the Joint Veterinary Committee to find suitable solutions.

The Federal Food Safety and Veterinary Office and the Member States of the European Union shall notify each other of the specific import conditions established bilaterally which have not been harmonised at Union level.

- B. The border inspection posts of the Member States of the European Union referred to in point 1 of Part B of Chapter III of this Appendix shall check imports from third countries destined for Switzerland in accordance with part A of Chapter III of this Appendix.
- C. The Swiss border inspection posts mentioned in point 2 of Part B of Chapter III of this Appendix shall check imports from third countries destined for the Member States of the European Union in accordance with part A of Chapter III of this Appendix.
- D. Pursuant to the provisions of the Ordinance of 18 November 2015 governing trade involving the importation, transit and exportation of animals and animal products with third countries (OITE-PT; RS 916.443.10), the Swiss Confederation shall maintain the possibility of importing beef from bovine animals potentially treated with growth promoters. The export of such meat to the European Union shall be prohibited. In addition, the Swiss Confederation shall:
 - confine the use of such meat to direct selling by retail establishments to consumers under appropriate labelling conditions;
 - allow such meat to be introduced into Switzerland only through Swiss border inspection posts;

- maintain an appropriate traceability and channelling system to prevent any possibility of such meat being subsequently introduced into the territory of the Member States of the Community,
 - present once a year a report to the Commission on the origin and destination of the imports, plus an account of the checks carried out to ensure compliance with the conditions listed in the foregoing indents,
 - where there are concerns, these provisions shall be examined by the Joint Veterinary Committee.
