Honorable Ministers,

I would like to extend my sincere gratitude for your kind letter of congratulations on my appointment as Minister of Social Affairs. I truly appreciate your commitment to our continued cooperation and building on existing strong relations between Estonia and Finland.

In view of the current geopolitical situation, as well as economic and demographic challenges, I look forward to valuable exchanges and cooperation between our two countries, both bilaterally and at the European level. Especially when it comes to strengthening our social and health systems, advancing digitalisation and improving preparedness among others.

Yours sincerely,

Karmen Joller
Minister of Social Affairs
