Teema: Reminder: Mpox Data Submission - Due by 7 March 2024

Tähelepanu! Tegemist on väljastpoolt asutust saabunud kirjaga. Tundmatu saatja korral palume linke ja faile mitte avada.
ECDC NORMAL

Dear Colleagues,

This is a gentle reminder that the monthly mpox data for the month of February, along with any retrospective data, is due for submission by 7 March 2024. Kindly ensure that all epidemiological and virological information is reported to TESSy by 10:00 AM on the mentioned date.

Additionally, we kindly request that you report any significant increases in case numbers or changes in epidemiology, particularly outbreaks related to mass gathering events, re-infections among cases, or rise in cases among women or children, through event-based surveillance (EpiPulse and IHR channels). If support is needed in posting on EpiPulse, please, let us know.

Your contributions play a vital role in our efforts to control the mpox outbreaks and protect public health. Thank you for your continued cooperation.

If you have any questions, please feel free to contact us at for ECDC or for WHO Europe.

Best regards,
ECDC and WHO mpox teams

<>;Subject: For action: Extension of monthly reporting of mpox cases
through TESSy in 2024

ECDC NORMAL

To: National Focal Point for Emerging and vector-borne diseases; National
Focal Point for HIV/AIDS, STI and hepatitis B/C; National Focal Point for
Surveillance
CC: National Coordinator

Dear colleagues,

As the end of the year approaches, we would like to inform you of the
reporting schedule for early 2024. The next deadlines for reporting in
2024 will be at 10:00 AM on the following dates:

- * 11 January 2024
- * 8 February 2024
- * 7 March 2024
- * 4 April 2024
- * 2 May 2024

The monthly reported data will contribute to the production of a now quarterly ECDC/WHO EURO joint (next published on 12 January 2024) as well as the monthly reporting to WHO Headquarters and .

In the case of any unexpected increase in case numbers or presence of cases in specific risk groups, we kindly request that you please report these through event-based surveillance mechanisms (EpiPulse/EWRS/IHR routes).

If you have any questions or require further information, please do not hesitate to contact us at (ECDC) or (WHO Europe).

We would like to take this opportunity to wish you a restful break over the holidays, and a happy and healthy New Year.

Best wishes,
ECDC and WHO EURO mpox teams

European Centre for Disease Prevention and Control (ECDC)

To: National Focal Point for Emerging and vector-borne diseases; National Focal Point for HIV/AIDS, STI and hepatitis B/C; National Focal Point for Surveillance
CC: National Coordinator

Dear Colleagues,

As previously informed, mpox reporting to TESSy will be kept on a monthly basis. The next deadlines for reporting in 2023 will be November 9, 2023, by 10:00 AM and December 7, 2023, by 10:00 AM.

The monthly reported data will contribute to the production of a now quarterly ECDC/WHO EURO joint as well as the monthly reporting to WHO Headquarters and .

In the case of any unexpected increase in case numbers or presence of cases in specific risk groups, we kindly request that you please report these through event-based surveillance mechanisms (EpiPulse/EWRS/IHR routes).

We thank you for all the contributions and support given so far.

If you have any questions or require further information, please do not hesitate to contact us at (ECDC) or (WHO Europe).

Best wishes,
ECDC and WHO EURO mpox teams

 Luis Alves de Sousa <>;Subject: For action: Extension of monthly
 reporting of mpox cases through TESSy

Dear colleagues,

We are writing to inform you of an extension to the monthly surveillance for mpox and the upcoming data reporting deadline to TESSy.

Kindly report the case-based mpox data to TESSy for the month of September to TESSy on or before: October 5, 2023, by 10:00 AM

We understand that this notification comes with very short notice, and we apologize for any inconvenience this may cause. We highly value your contributions and dedication to this important endeavour. We are currently working on providing more detailed information regarding submission deadlines and other related matters. We will communicate these updates to you as soon as they are available.

Please continue to report all available epidemiological and virological information related to mpox cases. Additionally, if there are any significant increases in case numbers or changes in epidemiology, such as outbreaks related to mass gathering events, re-infections among cases, or a rise in cases among women or children, we kindly request that you report these through event-based surveillance (EpiPulse). ECDC will make this information accessible to WHO Europe through the "Situation Awareness" tab in EpiPulse to avoid double-reporting to ECDC and WHO.

We want to express our gratitude to all countries that have contributed their data thus far. Your ongoing support is instrumental in our collective efforts to combat mpox.

If you have any questions or require further information, please do not hesitate to contact us at (ECDC) or (WHO Europe).

Thank you for your continued cooperation and dedication to mpox surveillance.

Best wishes,
ECDC and WHO EURO mpox teams

<>Subject: For action: monthly reporting of mpox cases through
TESSy

Dear colleagues,

As you will be aware, the Fifth Meeting of the International Health Regulations (2005) (IHR) Emergency Committee on the Multi-Country Outbreak of mpox (monkeypox) took place last week, please see here: Having considered the significant decline in the global spread of mpox and the gains achieved in the control of the outbreak in many countries, the Committee advised that the event requires a transition from a PHEIC to a robust, proactive and sustainable mpox response and control program, that prevents resurgence of global spread, aims to eliminate person-to-person transmission, and mitigates the impact of local spill-over effects.

In line with this, we continue to request monthly mpox data submission to TESSy complemented by event-based surveillance with reporting through IHR mechanisms. Please report all available epidemiological and virological information.

Please continue to report case-based mpox data to TESSy for the previous month on the first Tuesday or Wednesday of each month, by 10:00AM. Due to potential overlap with holidays, the following dates for monthly data upload for the next six months are as follows:

Wed 7 June 2023

Wed 5 July 2023

Wed 9 August 2023

Wed 6 September 2023

We will continue to publish the Joint Mpox Surveillance Bulletin on a monthly basis. Please report any significant increases in case numbers or changes in epidemiology, such as outbreaks related to mass gathering events, re-infections among cases, rise in cases among women or children, ad hoc through event-based surveillance (EpiPulse). ECDC will make the posted information accessible to WHO Europe through the Situation Awareness tab in EpiPulse to avoid double-reporting to ECDC and WHO.

Please also note that should there be any significant changes in mpox epidemiology in the coming months, the reporting frequency through TESSy might be changed on short notice to ensure appropriate surveillance according to the epidemiological situation.

We once again thank all countries that have contributed their data so far. Please contact for ECDC and for WHO Europe should you have any questions.

Best wishes,
ECDC and WHO EURO mpox teams
