Dear Mr. Tavo Ani,

Hereby I would like to offer you the Ground Penetrating Radar "Zond x500" and its accessories consisting of:

|                                                  |                                                                                                                                                                                                                                                                                                                                                                                          |                      |
|--------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------|
| 1.                                               | <b>Zond x500 GPR*</b>                                                                                                                                                                                                                                                                                                                                                                    | 11,975.00 EUR        |
|                                                  | Ground Penetrating Radar with built-in shielded air launched antenna unit with central frequency 500 MHz and lithium-ion battery for 8-12 working hours per one. Ingress protection is IP67. Includes battery charger, tow-handle, cables, user's manuals, Prism2 acquisition and 2D processing software with perpetual license for 2 PC, etc. GPR weight is 7.2 kg** without packaging. |                      |
| 2.                                               | <b>Shockproof cart</b>                                                                                                                                                                                                                                                                                                                                                                   | 1,370.00 EUR         |
|                                                  | Shockproof cart with built in survey wheel encoder (300 mm, 1000 ppr). Maximum speed is 10 km/h. Cart weight is 14.0 kg without packaging.                                                                                                                                                                                                                                               |                      |
| 3.                                               | <b>zBell RTK GNSS receiver</b>                                                                                                                                                                                                                                                                                                                                                           | 1,200.00 EUR         |
|                                                  | Multifrequency RTK GNSS receiver (GPS L1C/A L2C, GLONASS L1OF L2OF, Galileo E1B/C E5b, BeiDou B1I B2I, QZSS L1C/A L1S L2C, SBAS L1C/A) with 1 cm accuracy (in RTK mode) and built-in Li-Po battery for 8 working hours. Ingress protection is IP67. zBell weight is 0.45 kg without packaging.                                                                                           |                      |

\* GPR does not contain Notebook Personal Computer (PC) or any other logger. Minimal PC requirements: Windows 8.x/10/11, CPU Core i5, RAM 4 GB, Bluetooth 2.0 and Wi-Fi.

\*\* GPR weight includes GPR only (without its accessories and carrying case).

\*\*\* Equipment contains build-in Lithium Ion Battery. Its transportation has to be in accordance with IATA and EU rules.

**Terms & Conditions:**

- All prices are indicated without VAT
- Payment method: 100% payment in advance by bank transfer

- Delivery time: 4-6 weeks after prepayment receiving
- One-Year Limited Warranty commencing on the date of purchase under condition of delivery of failed components to Riga, Latvia. Warranty doesn't cover any mechanical damages and also the equipment with signs of mechanical, thermal, water or chemicals damages. Warranty doesn't cover the cost of transportation.
- Non-warranty repairs are performed for extra pay.
- Validity of the offer: **31.12.2025**

Sincerely Yours Vladimir Zolotarev, managing director.
