Minister of the Environment and Climate Change
Finland

27th June 2024

MINISTERIAL INVITATION
WORLD LNG SUMMIT & AWARDS, 9-12 DECEMBER 2024, BERLIN

Excellency,

As a critical voice within the global energy sector, it is with great pleasure that we invite you to attend and speak at the World LNG Summit & Awards 2024, taking place on 9th-12th December 2024 at the Adlon Kempinski Hotel Berlin, Germany.

Every year, the World LNG Summit & Awards provides a platform to connect the most senior global LNG and gas leaders from ministers and policymakers to global CEOs to set new agendas for the energy industry. The event brings the key stakeholders together to discuss the crucial role LNG and gas will play in delivering energy security, economic stability, and the ongoing drive for decarbonisation.

This year, the World Renewable Fuels Summit will also take place alongside the World LNG Summit this year. It will cover the policy moves that will support the development of this important new sector market, discuss the technological breakthroughs underway that will eventually bring down costs, connect the offtakers and producers to establish supply chains and encourage offtakers to make the switch. It will also connect investors with technology providers to provide the finance needed to move the industry forward.

Against an evolving geopolitical, financial, and environmental landscape, the World LNG Summit & Awards continues to shape the future of this industry. We would be honoured to welcome you to World LNG Summit & Awards 2024 as our esteemed guest, joining fellow influential energy leaders to discuss how to tackle the most pressing global energy challenges and capitalising on the growth opportunities presented by concurrent energy transitions.

Should you have any questions, or wish to discuss this invitation further, please contact our World LNG Summit & Awards Conference Producer, Dominic Coyne, at domcoyne@dmgevents.com, and we very much look forward to welcoming you to World LNG Summit & Awards 2024.

Yours sincerely,

World LNG Summit & Awards

9-12 December 2024
