Our ref 12.12.2025 nr 17.1-3/25/21005-1

Exemption of fi-fi system (90254)

To Whom It May Concern,

The Estonian Transport Administration agrees to make exemption regarding fire-main lines downstream of isolating valve within the machinery space (LR SSC. Part 17, Ch 2, Sec 2, 2.14.8 (c)) due to vessel operational profile and construction constraints. The fire-main lines and there connections in engine room will get extra fire protection.

Yours sincerely
