„CONVEHO European Hospital Convention took place in Brussels on 17 Nov 2023. Participants, most of them hospital executives, scientists, healthcare managers, medical professionals, public health specialists and leaders of European healthcare organizations came from all over Europe.

The program was busy with valuable presentations and discussions allowing for good knowledge exchange. I was privileged to contribute to the success of the Convention as a dynamic moderator of two sessions, good listener and an active networker. My overall experience was excellent. I am looking forward to the 2024 CONVEHO European Hospital Convention in Amsterdam.”

Jaroslaw J. Fedorowski

Univ. Prof., MD, PhD, MBA, FACP, FESC
President, Polish Hospital Federation PFSz
Governor, European Hospital Federation HOPE
CONVEHO 2023 Speaker & Moderator

„Participating in The CONVEHO summit in Brussels as President of the European Health Management Association was a remarkable experience. Engaging in dynamic debates on artificial intelligence and the hospitals of the future with key stakeholders in hospital management was incredibly enlightening. The event offered unparalleled networking opportunities, allowing us to share cutting-edge research and the best international practices. Emphasizing the importance of maintaining the humanistic aspect of care, I advocated for the critical role of healthcare professionals in the successful integration of AI. Our discussions underscored the necessity of collaboration and innovation in shaping the future of healthcare. The summit reinforced my belief that we can achieve significant advancements by working together towards common goals. I strongly recommend CONVEHO to Healthcare managers and leaders so as to keep up-to date with the latest debates in the field.

„The CONVEHO summit in Brussels was a very rewarding experience. Being able to meet high-level professionals in the industry provided me with new insights in the ever ongoing development of hospital management.

As my speech and current occupation focus on management models currently in use, I was happy to become acquainted with other experts in the field that I have since visited on their home turf with a continuous exchange of ideas.

From my perspective, the anticipated increased output of hospitals can only be achieved with improved management within the organisations themselves.

CONVEHO was a great forum for this discussion.”

Gustaf Josefson

Councilor, The Region Västra Götaland, Sweden
CONVEHO 2023 Speaker

„Last year, I had the honor of presenting and sharing my expertise in hospital design at the European Hospital Convention CONVEHO, an immensely rewarding experience. This event brought together managers, medical directors, and heads of clinical departments from leading European hospitals, spanning Belgium to Ukraine. It was an exceptional opportunity to network with esteemed colleagues, share my expertise, and learn from various fields.

The collaborative atmosphere and focus on best practices in health investment, management, and high-quality medical activities greatly enhanced the convention's value. I gained insights into sustainable healthcare, hospital management during wartime, and the latest innovations for future-ready hospitals.

I eagerly anticipate this year's event in Amsterdam and the chance to continue these valuable exchanges”.

Baton ARIFI

General Manager, PATRIA, Kosovo
CONVEHO 2023 Speaker

"I appreciate the formal and informal contacts with the international community of CONVEHO European Hospital Convention. A highlight at the latest edition, was the presentation by a Ukrainian colleague on the incredible resilience of the Ukrainian healthcare system as demonstrated in the field of rehabilitation after war injuries".
