Ethanol content of bulk solution "mikrozyd® AF"

The raw material ethanol (ethanol 94% (w/w), 1% MEK denatured) used for the bulk solution "mikrozyd® AF" has the following composition:

	CAS Number	Name	Content [% w/w]
1	64-17-05	Ethanol	94
2	78-93-03	Methyl ethyl ketone (MEK)	1
3	7732-18-5	Water	5

schülke herewith confirms that 100 g of bulk solution "mikrozyd® AF" contains 25 g of the raw material ethanol and therefore 24,75 g of ethanol 94 % (w/w) or 23,265 g pure ethanol.

The bulk solution "mikrozyd® AF" is used for the following biocidal products:

- mikrozyd® AF liquid
- mikrozyd® AF wipes
- kodan® (N) wipes
- terralin® liquid
- terralin® AF wipes
- septinol® SA
