Our ref. 29.01.2026 No 5.1-3/248-2

**Letter of support for the proposal “Bridging Health and Social Care for Safer Home-Based Care: Strengthening Integrated Care Transitions to Improve Equitable Access” (acronym BRIDGE)**

To whom it may concern,

On behalf of the Ministry of Social Affairs of Estonia, this letter confirms our support for the proposal entitled “[Project full title]”, acronym BRIDGE, submitted to the THCS Joint Transnational Call (2026).

The Ministry of Social Affairs of Estonia expresses its willingness to collaborate with the consortium and endorses our participation in the project activities, subject to the applicable institutional procedures and programme requirements.

BRIDGE aims to strengthen safe and coordinated care across settings and to support those involved in home-based care by reinforcing integrated care transitions and cross-sector collaboration. [Institution legal name] considers this initiative aligned with its strategic priorities in quality and safety, and integrated care.

In addition, the Ministry of Social Affairs of Estonia is interested in exploring pathways for uptake, continuity, and potential sustainability of relevant project outputs beyond the funding period, in accordance with available resources, applicable approvals, and the consortium’s governance arrangements.

Yours sincerely,

Anniki Lai  
Deputy Secretary-General on Health
