Our ref 07.05.2024 nr 11.1-12/24/10064-2

Dear Mr/Ms/Mrs Chaudhary

Thank You for your proposal and Your concern. Road deaths and serious injuries are important and crucial factors. In our everyday work one of our purposes is to control qualification of drivers via theory and driving test. Our driver theory test is built up according to our legislation.

Your solution is definitely interesting but according to our legislation it can be used only in learning process, but not as part of official test. We are not dealing with drivers' education. If You are interested, then in Estonia are two unions who are merge driver schools, dealing with drivers' education. One is Eesti Autokoolide Liit ([Eesti Autokoolide Liit » EAKL](#)) and the other one is Liikluskoolitajate Liit ([Liikluskoolitajate liit \(liikluskoolitus.ee\)](#)).

Yours sincerely

(Digitally signed)
