Estonian-Indian partnership

Dear Mr/Ms **Kritika Ravichandran**,

Thank you for reaching out and for your kind words regarding Estonia's digital ecosystem and innovation-led governance. It is impressive to learn about the work Partnr Network is doing in collaboration with AICTE to bridge the gap between Indian engineering talent and global opportunities.

Estonia is indeed constantly looking for ways to strengthen its digital economy and connect with high-quality global talent. We appreciate your proposal to facilitate access to India's skilled engineers and the upskilling initiatives you mentioned.

To help you gain a better understanding of the Estonian labor market, recruitment regulations, and the current needs of our companies, I highly recommend exploring the **Work in Estonia** portal. It is the official guide for international recruitment and provides comprehensive information on:

- **Working conditions** and legal frameworks in Estonia.
- **Current job offers** and active sectors seeking talent.
- **Support services** for both employers and international employees.

You can find all the relevant information here: [Work in Estonia – Official guide to finding a job in Estonia](#)

Thank you again for your interest in Estonia.

With best regards,

*(signed digitally)*
