Munich Security Conference 2027

Your Excellency,

It is my great pleasure to invite you to attend the 63rd edition of the Munich Security Conference (MSC), which will take place from February 12 to 14, 2027, at the Hotel Bayerischer Hof in Munich.

The Munich Security Conference is the world's leading forum for international security policy. For over six decades, the conference has brought together high-level decision-makers, leading experts, and thought-leaders from around the world to discuss the most pressing security challenges of our time. In keeping with its founding principle—*Peace through Dialogue*—the event seeks to foster substantive, frank, and interactive discussions and strategic debates at the highest level.

As in previous years, the Munich Security Conference 2027 will once again offer a unique platform for strategic discussions on stage, confidential bilateral meetings, and a wide range of carefully selected side events in cooperation with international partners. The conference aims to provide a space for developing new approaches, strengthening existing initiatives, and deepening international cooperation in order to make a substantial contribution to peace and security.

I would be delighted to welcome you to Munich in February.

Sincerely,

Wolfgang Ischinger
