

Invitation to Electronic Warfare Live 2025

Dear Recipient,

It is my pleasure to invite military and procurement delegations of your country to the event, Electronic Warfare Live 2025, which will take place in Tartu, Estonia, throughout 23-26 September 2025.

This will be the sixth edition of EWLive in Estonia and is organised in cooperation between the Estonian Ministry of Defence, Estonian Defence Forces, CR14, Estonian Defence and Aerospace Industry Association, and Tangent Link.

The event provides unique opportunities to assess EW/CEMA equipment and capabilities in a live environment, and participate in a practitioner's seminar.

The capabilities being demonstrated include ESM, CEMA, UAS and CUAS (detection), SIGINT/COMINT/ELINT, EW Training, and Space-based EW/ISTAR.

Live demonstrations and classroom sessions will be supported by a comprehensive industry specific exhibition.

Further information on EWLive and list of confirmed demonstrating companies can be found at <https://tangentlink-events.com/ew-live2025>.

The registration deadline for government employees and military specialists is **31 July 2025**. Please contact Kate Niven kniven@tangentlink.com to check eligibility or if you have any questions.

I look forward to welcoming your delegation to Estonia in September 2025.

Yours sincerely,

Tiina Uudeberg
Undersecretary for Defence Planning
