Confirmation letter on receipt of support

Võrumaa District of the Estonian Defence League thanks you for your pleasant cooperation in the form of financial support 5000€. For the support amount, we plan to develop our thermal observation capabilities and purchase a DJI Mavic 3 Thermal drone with thermal camera, which fills an important capability gap. The drone is scheduled to be purchased in May this year and you are invited to our appreciation event.

Looking forward to future cooperation.

Best regards!
