Invitation to Ms Jacqueline Poh

Dear Ms Poh,

I am writing to you on behalf of Latitude59 to invite you to attend the upcoming conference, which is the biggest and most innovative tech event in the region. Latitude59 will take place from May 22nd to May 24th in Tallinn, Estonia.

Latitude59 is a non-profit organization that is dedicated to impacting and driving change on various issues using the help of technology. Said issues include topics such as defence tech, climate change, sustainability, diversity & social justice, and economic development. We can achieve our goals by bringing together experts in these fields to share their insights and experiences. Latitude59 welcomes annually approximately 3500 attendees from 60+ countries, including 800+ investors and 500+ startup representatives, over 20 foreign delegations and up to 100 foreign journalists.

Therefore, we would like to invite you as a speaker at the event. As the leader in Singapore's development of AI technologies and fostering an ecosystem around it, you would be the perfect speaker for our conference main stage and also in the official side event "Thinking in Billions" which focuses on public-private partnerships. We believe your expertise, insights, and experience will be invaluable.

Estonia has the ambition to foster groundbreaking collaborations between its public sector and truly ambitious founders wanting to create global systemic change. We would like to highlight Singapore's experience and know-how and bring other, local and international, panelists together to dive in the topic. We would be delighted to have you attend the conference and join in the discussions. Your participation would be greatly appreciated, and we believe your presence would contribute to the event's success.
