Teema: Access to population register

TÄHELEPANU! Tegemist on väljastpoolt asutust saabunud kirjaga. Tundmatu saatja korral palumelinke ja faile mitte avada!

Dear Sir/Madam,

Roaring would like to build api services for our customers to access the Estonian population register. We already have similar connections to the Swedish, Norwegian, Danish and Finnish population registers.

Our customers are always companies, They need population register access for example in a banking/payment solution, where they need the address information for an Estonian person who is making a transaction or becoming their customer. They use Roaring as a platform to reach the different information sources they need.

Under what conditions do you share population register information, and are there any special conditions for companies not based in Estonia?

I found this link on the web site, but it does not work for me, I just reach a page which says "This site can't be reached":

<https://vana.siseministeerium.ee/en/access-information-case-legitimate-interest>

Kind regards,
Kristina Ek
