

 XW1 Proj. MP maakaablid  
 Proj. rippkeerdkaabel  
 Ol. olev MP õhuliin  
 Ol. olev KP õhuliin  
 Katastriksuse piir  
 Maantee kaitsevöönd

The diagram illustrates the X-cable construction, showing the following components from top to bottom:
 

- Proj. MP maakaabli torus (X-kaablite arv trassis)**: A horizontal line with a small loop on the left, representing the projected main cable tube.
- Proj. rippkeerdkaabel**: A horizontal line with a small loop on the left, representing the projected suspension cable.
- Ol. olev MP õhuliin**: A horizontal line with a small loop on the left, representing the existing main cable.
- Ol. olev KP õhuliin**: A horizontal line with a small loop on the left, representing the existing suspension cable.
- Katastriüksuse piir**: A horizontal line with a small loop on the left, representing the cadastral unit boundary.
- Maantee kaitsevöönd**: A horizontal line with a small loop on the left, representing the road protection zone.

|                                                                                                                                                                                                                                                                        |  |                      |  |           |  |            |                                                                          |  |               |  |          |  |         |                |       |  |
