Letter of Congratulation

Honourable Minister, dear Colleague

Please allow me to extend my sincere congratulations on your appointment as Minister of Health. I wish you every success in all your endeavours.

I look forward to working together on addressing the common priorities and challenges that remain high on the agenda of health ministers, including strengthening health system resilience, advancing digital health, ensuring access to medicines, and improving preparedness for health crises. I am confident that valuable exchanges and cooperation between our two countries bilaterally, at the European level, and in other international engagements will strengthen our partnership and support our shared efforts in advancing common health objectives.

Please accept the expression of my highest consideration.

Yours sincerely,

Karmen Joller
Minister of Social Affairs
