**EU JAMRAI 2\_WP6.1: Request for Consent  
to Use Survey Responses for Dissemination  
Purposes\_Hospital ASP Survey**

Thank you for your inquiry regarding permission to use our responses to the questionnaire. Unfortunately, I do not currently have access to the questionnaire itself, as it appears to have been completed by an employee who no longer works at our institution. To ensure we provide an informed and accurate response to your request, could you please send us a blank copy of the questionnaire or, even better, the completed version submitted by our institution? This would help us confirm whether we are able to grant permission for the use of this data.

Thank you very much for your understanding and assistance

Kind regards,
