Teema: Annual global leprosy reporting for 2023- Estonia

Dear Ms Helen Söber,

Greetings from WHO Global Leprosy Programme!

As in previous years, WHO is collecting annual data on leprosy for publication in the Weekly epidemiological record. For countries in the WHO European Region, we only collect a minimum amount of data through a simple excel file (attached).
The official request letter is attached for your kind perusal.

Thank you for your kind support.

Best regards,
Vivek.

Dr. Vivek Lal
