

## GLOBAL STRATEGY FOR SKILLS, MIGRATION AND DEVELOPMENT

A interdisciplinary consortium creating and implementing an imperative for skills development in a systematic and effective manner. GS4S supports a strategic approach to addressing migration challenges and fostering global cooperation and stability in targeted areas: **the Balkans, Middle East/Northern Africa (MENA), West Africa, South Asia.**

## CREATING A GLOBAL STRATEGY TO ADDRESS SKILLS SHORTAGES IN DIGITAL SECTOR + CARE INDUSTRY + CONSTRUCTION

### 01. STRATEGIES

Academia, the Private Sector and Civil Society come together to propose alternative strategies to migration that address skills shortages, promote skills/up-skilling/re-skilling and explore opportunities to prepare workers for engagement in the project's three focus sectors.

### 02. POLICY SOLUTIONS

The GS4S Policy Lab supports working papers, policy briefs, roundtables and workshops based on mapping and science-based analysis of the issues to inspire policymakers, helping them to take action towards creating a more inclusive and sustainable approach to skills development, migration, and investments in economic development.

### 03. TOOLS

Policymaker decision-making tools explore potential policy responses to shortages in priority sectors to better understand opportunities for action and potential constraints, while digital tools are developed for identifying shortages and skills waste in the EU.
