

During January 2024:

Collection of ANSP-level EoSM responses using the dedicated questionnaire template provided by the EC (in attachment to this e-mail).

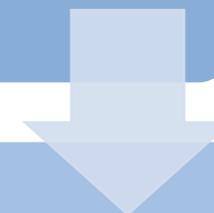

By 1 February 2024:

NSAs submit the templates that were populated by the ANSPs to the EC ([MOVE-ESSKY@ec.europa.eu](mailto:MOVE-ESSKY@ec.europa.eu)), PRB ([prb-office@prb.eusinglesky.eu](mailto:prb-office@prb.eusinglesky.eu)) and EASA ([ross.inwood@easa.europa.eu](mailto:ross.inwood@easa.europa.eu)). The submission is to be done as a reply to this e-mail, using the “Reply all” function.

Between 1 February and 1 June 2024:

NSAs thoroughly review the submitted ANSP-level EoSM responses, making use of intelligence gained during oversight inspections to validate the data.

By 1 June 2024:

NSAs report the validated EoSM data and the related observations as part of the annual monitoring reports to be submitted to the EC by 1 June 2024 (CIR 2019/317 Article 37(1)). The validated data should clearly include the relevant NSA comments, any corrections, and the final verified level within the NSA verification log. The verified responses should be submitted as outlined above (“Reply all” to [MOVE-ESSKY@ec.europa.eu](mailto:MOVE-ESSKY@ec.europa.eu), [prb-office@prb.eusinglesky.eu](mailto:prb-office@prb.eusinglesky.eu) and [ross.inwood@easa.europa.eu](mailto:ross.inwood@easa.europa.eu)).
