

# Executive Officers Meeting on EH Governance and Capacities - Case study collection

Dear colleagues,

The WHO European Centre for Environment and Health is seeking case studies on national practices and experiences regarding governance and capacities in environment and health (EH). They should be submitted using this template.

The case studies will be used to compile an overview of national (and subnational) actions to implement and support the commitments made at the 7th Ministerial Conference on Environment and Health in Budapest in July 2023. WHO will use some of the submitted case studies to inform a background document for the Executive Officer Meeting on EH Governance and Capacities, to take place in Bonn, Germany, 2–4 December 2024.

Case studies can represent good experiences, examples and lessons learned in relation to

- 1) EH governance and leadership schemes and collaboration across sectors and governance levels,
- 2) financial and human resources for EH, and
- 3) knowledge transfer and communication on EH.

Selected examples may also be considered for presentation at the meeting, to inspire action in other Member States.

Should you wish to submit more than one case study, please contact Matthias Braubach ([braubachm@who.int](mailto:braubachm@who.int) (<mailto:braubachm@who.int?subject=Case%20study%20collection>)) to receive personalized links for each extra case study.

**The deadline for the submission of case studies is 30 September.**

For any queries, please contact [eurobonnschool@who.int](mailto:eurobonnschool@who.int) (<mailto:eurobonnschool@who.int?subject=Case%20study%20on%20EH%20governance%20and%20capacities>).

We look forward to receiving your submission.
