Tunnistuse väljastanud ametniku nimi ja amet: Riina Koit vaneminspektor  
 Name and designation of issuing officer:

Kuupäev / Date: 28.04.2026

Allkiri ja piser / Signature and seal:

(a) On avastatud nakkus või saastumine, kaasa arvatud kõrgis arenguastandustes haiguslekkidega seotud, määratud või muud tüüpi, kes võivad olla inimhaiguslekkide kandjad, inimese tervist ohustavad nakkushaigused, keemilised ja muud mikrobioloogilised, keemilised ja muud riskid inimese tervisele, signid adekvaatselt sanitaarmeesurid.

(b) Information concerning any human cases (to be included in the Maritime Declaration of Health).

(c) Information on any signs of infection or contamination, including vectors in all stages of growth, animal reservoirs for vectors, rodents or other species that could carry human disease, chemical and other risks to human health, signs of inadequate sanitary measures.

(d) Information on any signs of infection or contamination, including vectors in all stages of growth, animal reservoirs for vectors, rodents or other species that could carry human disease, chemical and other risks to human health, signs of inadequate sanitary measures.

(e) Results from sampling taken on board. Analysis to be provided to ship's master by most expedient means and, if no inspection is required, to the next appropriate port of call coinciding with the re-inspection date specified in this certificate.

(f) Sanitation control certificates and Sanitation Control Certificates are valid for a maximum of six months, but the validity period may be extended by one month if inspection cannot be carried out at the port and there is no evidence of infection or contamination.
