Copyright Registrar/Deputy Director/Copyright Help Desk

IPO, Islamabad Pakistan

APPLICATION FOR EXPEDITE COPYRIGHT REGISTRATION

We are applying for Copyright registrations of multiple applications to cover our trademark names and other products/content that fall under Copyright Literary, Artistic, Record and Cinematography work. We have already applied for the trademark registration dated **18-Sep-2023** to the Intellectual Property Organization Pakistan for the word & design mark for our brand mark name as **SILSILA-E-MUHAMMADIA AMEENIA IDREESIA** to protect our brand mark and we also want to get copyright registration for our brand mark name to protect Intellectual Property Rights under the copyright & other IP laws.

We are filing 21 initial copyright applications to cover all copyright classes including literary, artistic, record and cinematography works. Our organization's database remains contain approx. 20-30 literary/artistic works, 490 record works and 200-300 cinematography works.

Currently, we're facing massive level **copyright infringement** of our brand mark name and other products content on the web so we want to get copyrights for our brand mark name and complete the organization database as soon as possible to take legal action and litigation against the individuals or bodies that are making copyright infringement of our brand mark name and other products under the copyright laws.

Furthermore, we want to register our brand mark name globally through the **WIPO – Copyright Connect System** filing as an international application for copyright registration based on our country office of origin. For this purpose, we need a national copyright registration number issued by the Copyright Registry of IPO Pakistan to process our brand mark and other products copyright registration globally through WIPO.

Kindly consider our copyright applications on a priority basis for the reason of copyright infringement, copyright registration and international copyright registration of our brand mark name and other content. It is requested to the copyright registrar for a faster review and complete the examination process out of its regular order, allowing us to get copyright registration for our brand mark name and other products under all the copyright classes.

Thank You.
Kind Regards

Dated 07-May-2024

Agha Zafar Abbas Saleem
CEO (SILSILA-E-MUHAMMADIA AMEENIA IDREESIA)
