Teema: Press Question from Euractiv Journalist Re: Benzene in Acne Products

Tähelepanu! Tegemist on väljastpoolt asutust saabunud kirjaga. Tundmatu saatja korral palume linke ja faile mitte avada.
Hello,

My name is Olivia Gyapong, and I am a reporter with Euractiv. The FDA in the USA is being asked to recall several acne products because they were found to have elevated levels of the carcinogen benzene. I was wondering if your national regulatory body has been alerted to similar issues with acne medications/products sold in the EU, and whether it is planning on announcing a recall of products containing benzoyl peroxide and/or dangerous concentrations of benzene.

Would someone from your agency be willing to speak with me about this issue today or later this week? Thank you! You can reach me at +1 240 483 1932, or I am happy to set up a video call.

Best,
Olivia Gyapong
