

**To Minister of Defence
of Estonia****Subject: Invitation to visit Origin Robotics at Eurosatory – Hall 5B, Stand C423**

Your Excellency Minister Pevkur,

At Eurosatory 2026, Origin Robotics will present its latest advancements in **autonomous interceptor drone technologies**, designed for rapid, precise, and **effective UAS and counter-UAS operations**. Our solutions reflect cutting-edge engineering and operational experience, offering a new level of capability for modern defence forces that are already **delivered to several NATO and EU countries (Latvia, Belgium, Sweden, Netherlands, Estonia) and as well Ukraine**.

Origin Robotics is pleased to extend an official invitation to your esteemed delegation to visit our stand at the **Eurosatory 2026 Defence and Security Exhibition**.

You will find us at:

Hall 5B**Stand C423**

During your visit, your delegation will have the opportunity to:

- **Explore demonstrations** and technical showcases of our interceptor drone platform.
- Learn about **cooperation opportunities**, including participation in already established **SAFE eligible multinational procurement frameworks**.
- Discuss **integration, capability development, and future collaboration** with our team.
- Receive a **dedicated briefing** tailored to your national defence and security priorities.

We would be honoured to welcome your delegation at a time most convenient for you and can arrange a bilateral meeting upon request.

For scheduling your visit or arranging a bilateral meeting, please contact:

Mr. Maris Kuda

Head of Government Relations

Origin Robotics
